ANNEX B - NATIONAL CONTACT POINTS AND NATIONAL/REGIONAL REGULATIONS

VERSION	PUBLICATION DATE	FUNDING ORGANISATION (COUNTRY)	CHANGES MADE
V1	14/09/26	N/A	N/A

TABLE OF CONTENTS

1.1 BELGIUM – BELSPO 3
1.2 BELGIUM – F.R.S. – FNRS 6
1.3 BELGIUM (Flanders) – FWO 9
1.4 BRAZIL – CONFAP 14
1.5 BULGARIA - MES 17
1.6 CROATIA – HRZZ 19
1.7 DENMARK- IFD 21
1.8 ESTONIA – ETAG 23
1.9 ESTONIA – REM 29
1.10 FAROE ISLANDS – RCFI 33
1.11 FRANCE – ANR 35
1.12 GEORGIA – SRNSFG 39

1.13 GERMANY – BMFTR/Ptj 42
1.14 GREECE-GSRI 45
1.15 IRELAND - MI 51
1.16 IRELAND – Research Ireland 54
1.17 ITALY-MUR 57
1.18 LATVIA – LZP 61
1.19 LITHUANIA – LMT 65
1.20 MALTA – XJENZA Malta 67
1.21 MONTENEGRO-MESI 70
1.22 NORWAY – RCN 73
1.23 POLAND – NCBR 78
1.24 PORTUGAL – FCT 84
1.25 ROMANIA – ANC 88
1.26 SLOVAKIA – SCS TI 91
1.27 SLOVENIA – MIZM 93
1.28 SPAIN – AEI 101
1.29 SPAIN – CDTI 107
1.30 SWEDEN – SNSA 110
1.31 THE NETHERLANDS – NWO, IenW, LVVN 112
1.32 TUNISIA – MHERS 120
1.33 TÜRKİYE – TÜBİTAK 123
1.34 Ukraine – MESU 126

1.1 BELGIUM – BELSPO

National/Regional regulations & regional contact points

	**Funding Organisation:** *http://www.belspo.be/*		belspo
National Contact Point (NCP)	**Name:**		**Email and Phone:**
	Koen Lefever		koen.lefever@belspo.be +32 2 238 35 51
Funding Commitment	**Funding contribution to the Call (in €)**		**Minimum/maximum funding per awarded Project and Partner**
	350,000 €		
Funded priority area (s)		**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
		Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting	
		Priority area 4: Building resilience in coastal communities with infrastructure and businesses	

Eligible Institutions	Royal Belgian Institute for Natural Sciences (RBINS)
Eligible Applicants	Applicants affiliated to an eligible institution.
Eligible Costs	**Staff:** Staff devoted to the implementation of the project; this is, recruited personnel and/or (non-)statutary personnel made (partially) available to the project and to be implemented on the project budget. A contractual researcher financed through other funding - full-time or part-time - cannot claim BELSPO staff budget for that part already funded. Partners must claim full staff costs, including end-of-year bonus, holiday pay and any employer's intervention in salary costs, as well as any other compensation or allowance due by law and secondary to the salary itself and tax-free scholarships. BELSPO prefers staff to be hired under a labour contract. The total number of tax-free scholarships per project is limited to max. 50% of the number of staff financed by BELSPO within said project. In any case, there shall not be more than 2 tax-free scholarships/project. Tax-free scholarships refer to a grant subject to tax exemption under the tax laws. **Specific operating costs:** this includes operating costs specific to the execution of the project tasks, such as costs for project analyses, maintenance and repair of equipment purchased by the project, use of specific IT facilities and software, costs for surveys, open data publications, organisation of workshops and events, etc.... **Overheads:** Institutions' general overheads that cover, in one lump sum, administration, telephone, postal, maintenance, heating, lighting, electricity, rent, machine depreciation, office material, equipment maintenance and repair costs, laboratory consumables and insurance costs. The total amount of this item is set as 15% of the total staff and operating costs. **Equipment:** Purchase and installation of scientific and technical apparatus and instruments, including specialized computer hardware (not PC or laptop, those go into "overheads"). Equipment needs to be purchased in the first half of the project.

	Subcontracting: Expenses incurred by a third party to carry out tasks or provide services that require special scientific or technical competences outside the institution’s normal area of activity. The amount may not exceed 25% of the total budget allocated to the Belgian partner concerned.
Additional eligibility criteria	Partners must be involved in the research and innovation activities of the project.

1.2 BELGIUM – F.R.S. – FNRS

National/Regional regulations & regional contact points

	**Funding Organisation:** *https://www.frs-fnrs.be/fr/*	fnrs LA LIBERTÉ DE CHERCHER
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Florence Quist **Joël Groeneveld**	**international@frs-fnrs.be** **+32 2 504 9351** **+32 2 504 9270**
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	300,000 €	**300.000**
Funded priority area (s)	✓ **Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓ **Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
	✓ **Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓ **Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	
Eligible Institutions	Universities, public research organisations All eligibility rules and criteria can be found in the PINT-MULTI regulations (see Annex 1)	

Eligible Applicants	All eligibility rules and criteria can be found in the PINT-MULTI regulations
Eligible Costs	• Personnel costs • Small equipment • Operational costs • Subcontracting All eligibility rules and criteria can be found in the PINT-MULTI regulations. Please note that personnel costs (Article III.6) have an annual average cap of 80,000 euros for this call. For "overhead" costs: • Operating expenses: up to 1% within the granted budget. This percentage should be included in the requested operating budget. • Personnel: up to 2% outside of the granted budget. This percentage will be paid upon reimbursement of expenses to institutions by the F.R.S.-FNRS. Please check the Practical guide on costs for any other questions.
Additional eligibility criteria	All eligibility rules and criteria can be found in the PINT-MULTI regulations
Relevant documents	-
Additional Information	**Applicants to F.R.S.-FNRS funding must provide basic administrative data by submitting an administrative application on e-space within 5 working days after the general deadline of the SBEP call to be eligible. Please select the "PINT-MULTI" funding instrument when creating the administrative application. Proposals invited to the second stage will be able to complete the pre-proposal form and provide information for the full proposal upon validation by the F.R.S.-FNRS.**

1.3 BELGIUM (Flanders) – FWO

National/Regional regulations & regional contact points

	**Funding Organisation:** www.fwo.be	**The Research Foundation – Flanders (FWO)**
National Contact Points (NCPs)	**Name:**	**Email and Phone:**
	Toon Monbaliu (FO) **Kristien Peeters (SBO)**	**europe@fwo.be** **+32 (0)2 550 15 70** **+32 (0)2 550 15 95**
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	700,000 €	**350.000**

Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**

Eligible Institutions	The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of the FWO funding channel depends on the type of project the researchers from Flanders wish to undertake (i.e. more fundamental in nature (FO) vs. strong emphasis on valorization potential (SBO)). The scope and the eligibility of institutions and its researchers can be verified in the relevant chosen funding channel documents and regulations, which can be consulted on the FWO website: ◄ FWO Research Projects (FO) ◄ Strategic Basic Research (SBO) Or by contacting the FWO contact points mentioned above.
Eligible Applicants	See 'Eligible Institutions' above.
Eligible Costs	The FWO foresees a budget of 700.000 EUR in total, which guarantees at least two projects. The respective funding channel regulations apply (see links to national rules above: 'Eligible Institutions' section), unless specified otherwise, and both are **capped at max. 350.000 EUR per project/consortium** (incl. overhead, for which the calculation method diverges per funding channel - see explanation below). For the **overhead calculation**, and even though the overhead rates differ, the fundamental (FO) and strategic research projects (SBO) use the same approach. More specifically, a structural overhead rate should be applied on the project costs, with an overhead rate of **6% for 'FO projects'**, and a **17% overhead rate for 'SBO projects'**. Some practical examples: ○ *FO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested cost is 212.000 EUR. This **total requested cost** may never exceed the max. available amount of 350.000 EUR.* ○ *SBO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total*

	*requested cost is 234.000 EUR. This **total requested cost** may never exceed the max. available amount of 350.000 EUR.* The overhead cost should be mentioned in the SBEP budget tables, but it should not be inserted in the national/regional FWO pre-registration form on the FWO E-loket (see below under 'Additional eligibility criteria').
Additional eligibility criteria	i) Submission of the proposal at the national level **A mandatory administrative application on the pre-proposal submission deadline, via the personal FWO e-loket of the PI from Flanders, is an essential part of the application process.** ○ For fundamental research projects (FO) select the application type: 'Research projects – European programme fundamental research'. ○ For strategic basis research projects (SBO) select the application type: 'Research projects – European programme strategic basic research'. In case the consortium includes more than one partner requesting funding from FWO, a single online form should be submitted by the main PI (promotor(-spokesperson)) itself, containing all relevant information for the different FWO applicants. **The deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call** (pre-proposal stage). Failure to comply with these requirements can lead to ineligibility. To ensure the eligibility of the proposal, it is recommended to consult the FWO administration (NCPs) at least one week in advance. ii) Participation in this call does not interfere with the 'national' FWO calls and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. **However, researchers can only participate within 2 different international projects/consortia in this call, and only once as coordinator.**

	iii) Projects aiming at the development of a spin-off company are not eligible in this context. This potential 'route' should not be mentioned in the FWO pre-registration form, as such. iv) The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the FWO Research Projects and article 14 of the Strategic Basic Research (SBO) regulations do not apply here. v) The PI, for each of the participating institutions applying for FWO funds, must **hold an appointment that fully covers the duration of the research project.** vi) Linked to the above, when it comes to the FWO research project regulations (FO): article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted **emeritus status** during the calendar year of submission of the project application or during the duration of the project execution, **are not eligible.**
Relevant documents	The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of the FWO funding channel depends on the type of project the researchers from Flanders wish to undertake (i.e. more fundamental in nature (FO) vs. strong emphasis on valorization potential (SBO)). The scope and the eligibility of institutions and its researchers can be verified in the relevant chosen funding channel documents and regulations, which can be consulted on the FWO website: ◄ FWO Research Projects (FO) ◄ Strategic Basic Research (SBO) Or by contacting the FWO contact points mentioned above.
Additional Information	See 'Eligible Institutions' above.
Useful Links	The FWO foresees a budget of 700.000 EUR in total, which guarantees at least two projects. The respective funding channel regulations apply (see links to national rules above: 'Eligible Institutions' section), unless specified otherwise, and both are **capped at max. 350.000 EUR per project/consortium** (incl. overhead, for which the calculation method diverges per funding channel - see explanation below).

	For the **overhead calculation**, and even though the overhead rates differ, the fundamental (FO) and strategic research projects (SBO) use the same approach. More specifically, a structural overhead rate should be applied on the project costs, with an overhead rate of **6% for 'FO projects'**, and a **17% overhead rate for 'SBO projects'**. Some practical examples: • *FO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested cost is 212.000 EUR. This **total requested cost** may never exceed the max. available amount of 350.000 EUR.* • *SBO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR. This **total requested cost** may never exceed the max. available amount of 350.000 EUR.* The overhead cost should be mentioned in the SBEP budget tables, but it should not be inserted in the national/regional FWO pre-registration form on the FWO E-loket (see below under 'Additional eligibility criteria').

1.4 BRAZIL – CONFAP

National/Regional regulations & regional contact points

	**Funding Organisation:** **CONFAP – Brazilian National Council of State Funding Agencies** ***Largo da Matriz 45-52, 9500-094 Ponta Delgada*** ***Centro Empresarial Norte - Setor de Rádio e TV Norte Quadra 701, Conjunto C, Ala B, Sala 213 - Asa Norte, 70719-903, Brasília - DF, Brazil*** ***Website: confap.org.br***	CONFAP Conselho Nacional das Fundações Estaduais de Amparo à Pesquisa
Regional Contact Point (RCP)	**Name:**	**Email and Phone:**
	Anna Amaral	**Email:** internacional.confap@gmail.com
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	1,250,000€	**Detailed for each participating State Funding Agency - FAP in item below: “Additional Info”, indicating within the maximum budget, the maximum number of projects which may be supported (if applicable). Applicants must verify with the funding agency involved, the maximum amount, also in local currency.**

Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in marine production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Eligible Institutions	Eligible Institutions Public or private (non-profit) Higher Education and Research Institutions, Scientific Institutions, Technology and Innovation Institutions, eligible for the involved funding agencies - FAPs.	
Eligible Applicants	Applicants must have a doctoral or equivalent degree, and be linked to a Research Institution located in Brazilian States participating in the call and have scientific or technological production evaluated by Curriculum (Lattes Curriculum).	
Eligible Costs	As a general rule, Brazilian Funding Agencies finance scholarships, mobility and grants, related to scientific, technological and innovation projects.	
Additional eligibility criteria	Applicants must necessarily comply to the specific eligibility rules and financing modalities, which shall be defined and informed by the participating FAPs.	
Relevant documents	Specific Guidelines may be published by the participating FAPs.	
Additional Information	Brazilian applicants may be supported by the State Funding Agencies - FAPs, participating to the call, listed below. Applicants based in the States participating to the call should firstly consult their respective FAPs. Details on the Brazilian State Funding Agencies supporting the call, including amount of total funding, maximum number of projects (when defined) and contact points in each FAP are detailed below:	

	FAPs	State	Budget (Euros)	Max. no. ofprojects within the max. allocated budget	Contacts
	To be completed

1.5 BULGARIA - MES

National/Regional regulations & regional contact points

	**Funding Organisation:** ***Minstry of Education and Science*** ***https://www.mon.bg/en/homepage/***	**Managing organisation** **National Science Fund** **https://bnsf.bg/wps/portal/fond-izsledvaniq/fund** **(BG only)**
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Kalin Mutavchiev	**Ministry of Education and Science** **2A, Kniaz Dondukov Blvd., 1000 Sofia** **Tel. + 359 2 92 17 691; + 359 878 461 653** **Email: k.mutavchiev@mon.bg**
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project. If there are no project proposals in one of the priority areas the funding will be granted to the second best (high score evaluation) project proposal in another priority area, subject to Managing organization decision.**
	250,000 €	**The intended funding amount is 50,000 € per project**

Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**

Eligible Institutions	Scientific and research institutions and higher education institutions
Eligible Applicants	Principle Investigators, project coordinators, research team leaders reprecenting the scientific and research institutions and higher education institutions;
Eligible Costs	Salaries, equipment, consumables or other project-related costs, external services and overhead (depending on partner e.g. enterprise or public organisation)
Additional eligibility criteria	Partners such as research organisations, higher education institutions and associatied partners - NGOs and SMEs
Relevant documents	The announcement of the call/opportunity, with all relevant information and guides will be published on the websites of the Bulgarian National Science Fund (Managing) and the Ministry of Education and Science (Funding).

1.7 DENMARK- IFD

National/Regional regulations & regional contact points

	**Funding Organisation:** *https://innovationsfonden.dk*		Innovation Fund Denmark
National Contact Point (NCP)	**Name:**		**Email and Phone:**
	Mathias Holm Tveen		**Mathias.holm.tveen@innofond.dk, +45 6190 5073**
Funding Commitment	**Funding contribution to the Call (in €)**		**Minimum/maximum funding per awarded Project and Partner**
	2.000.000 €		**The maximum funding amount per Danish partner in international projects is 300,000 €. The maximum funding amount per project for all Danish partners, if the project has two or more Danish partners, is 500,000 €. The minimum funding amount is 50,000 € per partner**
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	

Eligible Institutions	Registered legal Danish entities are eligible for investments from IFD. Foreign entities not funded by their national authorities can be subcontractors to Danish partners after approval by IFD.
Eligible Applicants	IFD can fund all types of Danish partners actively participating in the projects.
Eligible Costs	Salaries, equipment other project-related costs, external services and overhead (depending on partner e.g. enterprise or public organisation)
Additional eligibility criteria	After the central application deadline IFD will, via our national e-grant platform, invite the Danish applicants to upload mandatory documentation to e-grant. Applicants are not required to submit documentation to IFD beforehand. The invitation is sent up to 2-4 weeks after the application deadline. Please contact IFD, if you do not receive this invitation. Non-public organisations will be requested to upload a "No undertaking in difficulty declaration" and a 'Financial and legal declaration". In addition, SME's will be required to upload an "SME declaration". If requesting de minimis funding, then a "de minimis aid compliance form" is required. All templates are available at IFD's website
Relevant documents	Declarations can be found HERE
Additional Information	
Useful Links	**IFD Guidelines**

1.8 ESTONIA – ETAG

National/Regional regulations & regional contact points

<table>
<tr><td rowspan="2"></td><td colspan="2">Funding Organisation:
www.etag.ee</td><td>Estonian Research Council</td></tr>
<tr><td rowspan="2">National Contact Point (NCP)</td><td>Name:</td><td>Email and Phone:</td></tr>
<tr><td>Katrin Saar</td><td>Katrin.saar@etag.ee

<tr><td rowspan="2">Funding Commitment</td><td colspan="2">Funding contribution to the Call (in €)</td><td>Minimum/maximum funding per awarded Project and Partner</td></tr>
<tr><td colspan="2">300,000 €</td><td>100 000 € if project partner
300 000 € if coordinator</td></tr>
<tr><td rowspan="4">Funded priority area (s)</td><td>✓</td><td colspan="2">Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy</td></tr>
<tr><td></td><td colspan="2">Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches</td></tr>
<tr><td></td><td colspan="2">Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting</td></tr>
<tr><td>✓</td><td colspan="2">Priority area 4: Building resilience in coastal communities with infrastructure and businesses</td></tr>
<tr><td>Eligible Institutions</td><td colspan="3">The following eligibility criteria address Estonian applicants in European partnership calls for transnational research projects. Each project is carried out by a consortium that consists of research institutions (partners) from different countries. Each partner in a funded project will be funded by their national Funding Organisation. It is mandatory for all Estonian applicants to follow both the general and the national eligibility criteria of the call by the submission deadline (in case of two-stage application, by the preproposal deadline). Please note that if one of the partners is not eligible, the entire proposal</td></tr>
</table>

	might be considered ineligible. In case of a positive funding decision the Host Institution, the Principal Investigator and the Funding Organisation will enter into a trilateral agreement. **The Host Institution** may be any legal entity that is registered and located in Estonia and has an Estonian bank account. Restrictions to eligible institutions and applicants may however be stated in the general call conditions which also apply to Estonian participants. The Host Institution (the final recipient) is the institution to which the grant will be allocated. After the submission deadline (in case of two-stage application, after the preproposal deadline) and upon the notice from the Funding Organisation, the Host Institution must confirm to the Funding Organisation in writing that the Estonian sub-project can be carried out on their premises in Estonia and that they will employ the Principal Investigator during the sub-project, should the project receive funding. If the Host Institution is an undertaking, the State aid and de minimis aid regulations must be taken into account.
Eligible Applicants	**The Principal Investigator (PI)** is a researcher who acts as the Estonian team leader in the project proposal. He/she will be responsible for how the grant is used and how the Estonian part in the project is executed. The PI must be clearly identified in the proposal. **The Principal Investigator:** - must have an updated public profile in the Estonian Research Information System (ETIS) by the submission deadline (in case of two-stage application, by the preproposal deadline); - must hold a doctoral degree or an equivalent qualification. The degree must be awarded by the submission deadline (in case of two-stage application, by the preproposal deadline) at the latest; - must have published at least three articles that comply with the requirements of Clause 1.1 of the ETIS classification of publications, or at least five articles that comply with the requirements of Clauses 1.1, 1.2, 2.1 or 3.1, within the last five calendar years prior to the proposal submission deadline (in case of two-stage application, prior to the preproposal deadline). Patents are equalled with publications specified under Clause 1.1. A monograph (ETIS Clause 2.1) is equalled with three publications specified in Clause 1.1 if the number of authors is three or fewer. If the applicant has been on maternity, paternity, or parental leave, in compulsory military service, or if there have been other exceptional circumstances (e.g., serious illness), they can request the publication period requirement to be extended by the relevant period of time.

	If the Principal Investigator has received the PhD degree outside Estonia, its correspondence to an Estonian doctoral degree must be recognised by either the Estonian ENIC-NARIC Centre or the Host Institution in accordance with the Regulation of the Government of the Republic of April 6, 2006, No. 89 "Evaluation and academic recognition of documents proving foreign education and the name of the qualification awarded in the foreign education system terms and conditions of use". The Funding Organisation may ask for a relevant Evaluation Report **If several Estonian institutions participate in a proposal, all institutions must have a Principal Investigator who meets the national eligibility requirements.**
Eligible Costs	**Budget** **If several Estonian institustions are applying in one proposal, the total requested budget can be still max 100.000 € per proposal or 300 000 € per proposal in case if one Estonian institution is the coordinator.** The budget contains costs directly related to the implementation of the project (direct costs) and indirect (overhead) costs. The direct costs must be used to carry out the project and be separately identifiable. **Direct costs:** - **Personnel costs** are monthly salaries (along with all state taxes, contributions, and compensations arising from law) of the project participants, calculated according to their commitment and in proportion to their total workload at their Host Institution. - **Other direct costs are:** - travel costs that may cover expenses for transport, accommodation, daily allowances and travel Insurance. If the project is funded from the European Regional Development Fund (Mobilitas 3.0) resources, **travel costs are eligible only for travels abroad;** - consumables and minor equipment directly and fully related to the project; - publication and dissemination of project results; - organising meetings, seminars or conferences (e.g room rent, catering, equipment rental and related costs); - fees for participating in scientific forums, conferences and other events directly and fully related to the project; - patent costs;

	- all other costs that are identifiable as clearly required for carrying out the project (e.g. translation, copy editing, webpage hosting, postage costs etc.) and are directly and fully related to the project. **Indirect costs (overhead)** are costs that cannot be identified as specific costs directly linked to the performance of the action and/or should cover the general expenses of the Host Institution related to the management of the grant. Office consumables and costs for equipment and services intended for general use (e.g., phone bills, copy service, printer) should be covered from the indirect costs. **Indirect costs are 15% of the personnel costs of the Estonian sub-project.** **Subcontracting costs** are direct costs. Subcontracting costs should cover only additional or complementary research related tasks (e.g. analyses, conducting surveys, building a prototype, etc.) performed by third parties. Subcontracting costs should not be included in the overhead calculation. The activities and budget should be described in the proposal. Core project tasks should not be subcontracted. **Subcontracting costs may not exceed 15% of the total costs of the Estonian sub-project.** Double funding of activities is not acceptable (i.e. the same cost item may not be reimbursed from different funding sources).
Additional eligibility criteria	**If several Estonian institutions participate in one proposal, the sum of their requested budgets may not exceed the maximum contribution per proposal of the respective national Funding Organisation indicated in the call documents.** **Exclusion from the scope of the ERDF (Mobilitas 3.0) funding** Following the restrictions laid down in Article 7 of the Regulation of the European Parliament and of the Council No 2021/1058 of 24 June 2021 on the European Regional Development Fund and on the Cohesion Fund research and other activities related to fossil fuels and their use, as well as other activities not eligible as per Article 7 of the Regulation, cannot be funded from the European Regional Development Fund (Mobilitas 3.0) resources. **State Aid** If the Host Institution is an undertaking, EU Regulations on State aid and de minimis aid must be taken into account when requesting funding. An undertaking is any entity, be it a natural or a legal person, engaged in an economic activity (i.e. activity consisting in offering goods and services on a market), regardless of its legal status and the way in which it is financed.

	The criteria defined in Clauses 18–24 of Communication from the European Commission – Framework for State aid for research and development and innovation (2022/C 414/01) form the basis for determining whether the activities carried out are economic activities and whether the Host Institution is an undertaking that is considered to be a State aid recipient when it receives funding. If the institution applies for State aid or de minimis aid, it must fill in the State aid form upon request by the Funding Organisation after the submission deadline. In case of two-stage application, the State aid form must be filled in after the notification of getting to the full proposal stage.
Relevant documents	https://etag.ee/wp-content/uploads/2026/04/Vastavusnouded-RV-uhiskonkurssidel_-EN_marts2026-2.pdf https://etag.ee/en/cooperation/horizon-europe/partnerships/era-nets-and-partnerships/
Additional Information	**It is mandatory for all Estonian applicants to follow both the general and the national eligibility criteria of the call. Please note that if one of the partners is not eligible, the entire proposal might be considered ineligible.** **Grant Agreement** If a positive funding decision is made, the Funding Organisation enters into a grant agreement with the Host Institution and Principal Investigator. Information on the transnational project must be entered into ETIS once the agreement has been signed. The Consortium Agreement should be signed six months after the grant agreement has been signed at the latest. If one year has elapsed and the CA has not been signed, the next instalment of funding will not be paid out. **Research Involving Human Subjects or Animal Testing** If human research or animal testing are intended in the project, a positive resolution by the Human Research Ethics Committee or the Authorisation Committee for Animal Experiments must be submitted to the Funding Organisation by the start of the relevant activities. **Nagoya Protocol** By applying for funding by the Funding Organisation, the applicants commit to consider the relevance of the Nagoya protocol for their research, and to submit the Due Diligence Declaration, if applicable.

<tr><td>Eligible Institutions</td><td colspan="3">1. Project Participants
1.1. The Host Institution may be any legal entity that is registered and located in Estonia and has an Estonian bank account. Restrictions to eligible institutions and applicants may however be stated in the general call conditions which also apply to Estonian participants.
The Host Institution (the final recipient) is the institution to which the grant will be allocated.
After the submission deadline (in case of two-stage application, after the preproposal deadline) and upon the notice from the Funding Organisation, the Host Institution must confirm to the Funding</td></tr>
</table>

	Organisation in writing that the Estonian sub-project can be carried out on their premises in Estonia and that they will employ the Principal Investigator during the sub-project, should the project receive funding. If the Host Institution is an undertaking, the State aid and de minimis aid regulations must be taken into account.
Eligible Applicants	1.2 **The Principal Investigator (PI)** is a researcher who acts as the Estonian team leader in the project proposal. He/she will be responsible for how the grant is used and how the Estonian part in the project is executed. The PI must be clearly identified in the proposal. The Principal Investigator: 1.2.1 must have an updated public profile in the Estonian Research Information System (ETIS) by the submission deadline (in case of two-stage application, by the preproposal deadline); 1.2.2 must hold a doctoral degree or an equivalent qualification. The degree must be awarded by the submission deadline (in case of two-stage application, by the preproposal deadline) at the latest; 1.2.3 must have published at least three articles that comply with the requirements of Clause 1.1 of the ETIS classification of publications, or at least five articles that comply with the requirements of Clauses 1.1, 1.2, 2.1 or 3.1, within the last five calendar years prior to the proposal submission deadline (in case of two-stage application, prior to the preproposal deadline). Patents are equalled with publications specified under Clause 1.1. A monograph (ETIS Clause 2.1) is equalled with three publications specified in Clause 1.1 if the number of authors is three or fewer. If the applicant has been on maternity, paternity, or parental leave, in compulsory military service, or if there have been other exceptional circumstances (e.g., serious illness), they can request the publication period requirement to be extended by the relevant period of time. If the Principal Investigator has received the PhD degree outside Estonia, its correspondence to an Estonian doctoral degree must be recognised by either the Estonian ENIC-NARIC Centre or the Host Institution in accordance with the Regulation of the Government of the Republic of April 6, 2006, No. 89 "Evaluation and academic recognition of documents proving foreign education and the name of the qualification awarded in the foreign education system terms and conditions of use". The Funding Organisation may ask for a relevant Evaluation Report. **If several Estonian institutions participate in a proposal, all institutions must have a Principal Investigator who meets the national eligibility requirements.**
Eligible Costs	2. **Budget**

	2.1. The budget contains costs directly related to the implementation of the project (direct costs) and indirect (overhead) costs. The direct costs must be used to carry out the project and be separately identifiable. 2.2. **Direct costs:** 2.2.1. **Personnel costs** are monthly salaries (along with all state taxes, contributions, and compensations arising from law) of the project participants, calculated according to their commitment and in proportion to their total workload at their Host Institution. 2.2.2. **Other direct costs** are: - travel costs that may cover expenses for transport, accommodation, daily allowances and travel Insurance. If the project is funded from the European Regional Development Fund (Mobilitas 3.0) resources, travel costs are eligible only for travels abroad; - consumables and minor equipment directly and fully related to the project; - publication and dissemination of project results; - organising meetings, seminars or conferences (e.g room rent, catering, equipment rental and related costs); - fees for participating in scientific forums, conferences and other events directly and fully related to the project; - patent costs; - all other costs that are identifiable as clearly required for carrying out the project (e.g. translation, copy editing, webpage hosting, postage costs etc.) and are directly and fully related to the project. 2.3. **Indirect costs (overhead)** are costs that cannot be identified as specific costs directly linked to the performance of the action and/or should cover the general expenses of the Host Institution related to the management of the grant. Office consumables and costs for equipment and services intended for general use (e.g., phone bills, copy service, printer) should be covered from the indirect costs. **Indirect costs are 15% of the personnel costs of the Estonian sub-project**. 2.4. **Subcontracting costs** are direct costs. Subcontracting costs should cover only additional or complementary research related tasks (e.g. analyses, conducting surveys, building a prototype, etc.) performed by third parties. Subcontracting costs should not be included in the overhead calculation. The activities and budget should be described in the proposal. Core project tasks should not be subcontracted. Subcontracting costs may not exceed 15% of the total costs of the Estonian sub-project. 2.5. **Double funding** of activities is not acceptable (i.e. the same cost item may not be reimbursed from different funding sources).

	2.6. If several Estonian institutions participate in one proposal, the sum of their requested budgets may not exceed the maximum contribution per proposal of the respective national Funding Organisation indicated in the call documents.
Additional eligibility criteria	3. **Exclusion from the scope of the ERDF (Mobilitas 3.0) funding** Following the restrictions laid down in Article 7 of the Regulation of the European Parliament and of the Council No 2021/1058 of 24 June 2021 on the European Regional Development Fund and on the Cohesion Fund3 research and other activities related to fossil fuels and their use, as well as other activities not eligible as per Article 7 of the Regulation, cannot be funded from the European Regional Development Fund (Mobilitas 3.0) resources. 4. **State Aid** If the Host Institution is an undertaking, EU Regulations on State aid and de minimis aid must be taken into account when requesting funding. An undertaking is any entity, be it a natural or a legal person, engaged in an economic activity (i.e. activity consisting in offering goods and services on a market), regardless of its legal status and the way in which it is financed. The criteria defined in Clauses 18–24 of Communication from the European Commission – Framework for State aid for research and development and innovation (2022/C 414/014) form the basis for determining whether the activities carried out are economic activities and whether the Host Institution is an undertaking that is considered to be a State aid recipient when it receives funding. If the institution applies for State aid or de minimis aid, it must fill in the State aid form upon request by the Funding Organisation after the submission deadline. In case of two-stage application, the State aid form must be filled in after the notification of getting to the full proposal stage. 5. **Grant Agreement** If a positive funding decision is made, the Funding Organisation enters into a grant agreement with the Host Institution and Principal Investigator. Information on the transnational project must be entered into ETIS once the agreement has been signed. The Consortium Agreement should be signed six months after the grant agreement has been signed at the latest. If one year has elapsed and the CA has not been signed, the next instalment of funding will not be paid out. 6. **Research Involving Human Subjects or Animal Testing** If human research or animal testing are intended in the project, a positive resolution by the Human Research Ethics Committee or the Authorisation Committee for Animal Experiments must be submitted to the Funding Organisation by the start of the relevant activities. 7. **Nagoya Protocol**

	By applying for funding by the Funding Organisation, the applicants commit to consider the relevance of the Nagoya protocol for their research, and to submit the Due Diligence Declaration, if applicable.
Relevant documents	**National Eligibility Criteria for grant applications in partnership calls for transnational research Projects (https://etag.ee/wp-content/uploads/2026/04/Vastavusnouded-RV-uhiskonkurssidel_-EN_marts2026-2.pdf)**
Additional Information	**It is mandatory for all Estonian applicants to follow both the general and the national eligibility criteria of the call. Please note that if one of the partners is not eligible, the entire proposal might be considered ineligible.**

1.10 FAROE ISLANDS – RCFI

National/Regional regulations & regional contact points

	**Funding Organisation:** ***Research Council Faroe Islands***	granskingarráðið RESEARCH COUNCIL FAROE ISLANDS
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Maria Húsgarð **Adviser**	**maria@gransking.fo** **+298 567802**

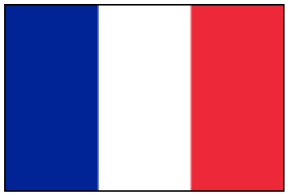

Funding Commitment	Funding contribution to the Call (in €)	Minimum/maximum funding per awarded Project and Partner
	135,000 €	50,000 € – 135,000 €

Funded priority area (s)		
	✓	Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy
	✓	Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches
	✓	Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting
	✓	Priority area 4: Building resilience in coastal communities with infrastructure and businesses

Eligible Institutions	The Host Institution could be any legal entity that is registered and located in the Faroe Islands.
Eligible Applicants	The Host Institution (the final recipient) is the applicant to which the grant will be allocated.
Eligible Costs	Personnel costs, expenses, indirect costs and overhead.
Additional eligibility criteria	The Research Council Faroe Islands may grant funding up to 2/3 of the total cost for the Faroese project partners.
Relevant documents	National Terms of Reference
Additional Information	Before submitting an application, partners from the Faroe Islands are required to consult with the Research Council Faroe Islands.
Useful Links	Gransking.fo

1.11 FRANCE – ANR

National/Regional regulations & regional contact points

	**Funding Organisation:** **Agence Nationale de la Recherche (ANR)** https://anr.fr/	anr agence nationale de la recherche
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Beverly Ray	SBEP-CallsFR@agencerecherche.fr;
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	2,000,000 €	The maximum amount that can be requested from ANR by each proposal with French applicant(s) is: 350.000 € (if Coordinating Partner is requesting funding from ANR and eligible for funding by ANR) 300.000 € (for standard French Partners) The minimum amount per beneficiary is 15 000€. If there are several French partners requesting funds from ANR, the total requested funding from ANR (300 000 €, extended to 350 000 € if the coordinating partner is requesting funding to ANR) must be split among them.

			For calculation of overheads, please check the ANR Funding Regulations (at 'actual costs' version) for at: https://anr.fr/fr/rf/
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	
Eligible Institutions	ANR may fund research organisations and undertakings, as defined by the EC regulation on State aid for research, development and innovation (see the ANR Funding regulations for further reference). Only research organisations that have their primary establishment in France may be funded. As for undertakings, ANR may fund those that have their real head office in an EU member State and an establishment (primary or secondary) in France. **In this call, to be eligible,** the consotium must include at least one french institution participating in the public research service. Companies in difficulties are excluded from ANR subventions. Partners, whether legal entities or natural persons, who are subject to sanction(s) imposed by the institutions of the European Union are excluded from this call. The ANR will declare ineligible any Partners requesting funding from the Agency who are, within the submitted project, associated with Partners subject to a sanction measure. As of the publication date, these exclusions concern in particular Partners from the following countries: Russia and Belarus; as well as Partners located in Ukrainian territories not under the control of the Ukrainian government. This list is not exhaustive and may evolve should new sanctions be adopted by the European Union. See more information on the eligibility of institutions on the ANR Funding Regulations https://anr.fr/fr/rf/.		

Eligible Applicants	See above
Eligible Costs	Please check the ANR Funding Regulations at: https://anr.fr/fr/rf/.
Additional eligibility criteria	**Additional eligibility criteria:** To be eligible, a proposal must not be deemed similar to another proposal still undergoing evaluation in another ANR call, or already funded. Depending on the consortium composition, a Consortium Agreement may be mandatory for ANR at the funding stage for successful applications. Please refer to the ANR funding regulations (at 'actual costs' version) for more details: https://anr.fr/fr/rf/ In keeping with the national *PPST* policy (Protection of the scientific and technological national potential) applicants to ANR should consult their local "FSD" (security and defence officer, where available) on their project before applying. Applications to ANR may be forwarded to the HFSD of the French Ministry of research and higher education for screening. A negative appraisal by the HFSD may cause ANR to reject the proposal.
Relevant documents	-
Additional Information	If applicable, Declarations of Due Diligence for the funded projects (Nagoya Protocol) must be transmitted to ANR in due time. Financial reports or closure certificate must be communicated to ANR according to the provisions of the ANR Funding regulations. The above-mentioned terms and conditions are only summarized translations of those entailed in the ANR Funding regulations and in the Appendix "*Modalités pour les Partenaires sollicitant une aide de l'ANR*". In case of inconsistencies, the terms of the ANR Funding Regulations (at actual costs) and the Appendix shall prevail. Please refer to these documents for more details.

Useful Links	Please check the ANR Funding Regulations at: https://anr.fr/fr/rf/.

</table>

Eligible Institutions	Proposals may be submitted by Germany-based universities, non-university research institutes, civil society organisations, public authorities, municipalities, commercial companies.
Eligible Applicants	For information regarding the EU's standard definition of SMEs, please visit https://single-market-economy.ec.europa.eu/smes/sme-definition_en Research institutions, which receive joint basic funding from the Federal Government and the Länder, can only be granted project funding supplementary to their basic funding for additional expenditure under certain preconditions.
Eligible Costs	- Personnel costs (Personalausgaben / -kosten) - Operational costs (Verwaltungsausgaben / -kosten) - Indirect costs Subcontracting (Vergabe von Aufträgen) - Travel costs (Dienstreisen) - Investment costs (investive Maßnahmen) Projektpauschale: Universities should consider 20% lump sum (“Projektpauschale”) already in the preparation of the proposal. Applicants are strongly advised to consult the BMBF guidelines on eligible costs (Richtlinien für Zuwendungsantraege AZA/AZK)
Additional eligibility criteria	Only two German partners in a consortium are eligible. The prerequisite for two German partners in a consortium is that at least one partner can be classified as company. If there is no German company in the consortium, only one German partner per consortium can participate - either as a coordinator or partner.
Relevant documents	We recommend, that applicants regard the BMFTR strategy “Research for Sustainability” (FONA) Strategy and the BMFTR funding priority “Costal, Marine and Polar Research for Sustainability (MARE:N)”.
Additional Information	No submission of preproposals (Projektskizzen) at the national level. Submission of proposals (Projektantraege) via the national application system easy-online (applicants selected for submission of a proposal will be informed about the link for submission).
Useful Links	**https://www.fona.de/de/themen/meeres-und-polarforschung.php** **https://www.ptj.de/projektfoerderung/mare-n**

1.14 GREECE-GSRI

National/Regional regulations & regional contact points

	**c** **GSRI (General Secretariat for Research & Innovation) Ministry of Development** https://gsri.gov.gr/en/	
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Georgia Anousaki	g.anousaki@gsrt.gr Tel.: +30 2131300128
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	1,000,000 €	Upper limit of the total public funding will be 200.000 € per project (including indirect costs). Please note that this amount can be increased to 250.000 € per project if Greek partner assumes the project coordination. The maximum state aid intensity will be calculated according to the provisions of the European state aid rules and regulations in force (type of research activity, size of the participating enterprise, collaborative research).

Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Eligible Institutions	GSRI potentially supports all private and public legal entities legally operating in Greece (not natural persons) namely: a) Research and knowledge-dissemination organizations (e.g. Higher-education Institutions or Research Centers/Institutes) b) Undertakings (a private and/or public sector unit, regardless of its legal status or size, engaged in eco-nomic activity) c) Other entities that will be considered as Research and knowledge-dissemination organizations, if respec-tive requirements are met, or undertakings GSRI does not support individuals and individual enterprises. The following categories of undertakings are also not eligible: • An "undertaking in difficulty" (according to art.2 of Reg. (EU) 651/2014, as amended by Reg.(EU) 2021/1237 & Reg.(EU) 2023/1315). • An undertaking which is subject to an outstanding recovery order following a previous Commission de-cision declaring an aid illegal and incompatible with the internal market. ** Large enterprises are eligible for funding only if they cooperate with an SME.*	

Eligible Applicants	Applicants may submit, if they are enterprises, up to two (2) proposals from the same enterprise in the current call, and for Public research Institutes and Universities up to (2) proposals at the level of the same Laboratory or School or Institute or Department. TRL3-(8) in compliance with the (COMMISSION REGULATION (EU) 2021/1237 of 23 July 2021 amending Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty, page 3, article 13) Applicants must be involved in research and innovation activities.
Eligible Costs	In compliance with the Commission Regulation (EU) No 651/2014 [in particular according to article 25 (c) and 25 (d)] declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty, as amended by Regulation (EU) 2021/1237 of 23 July 2021, the eligible costs of research and development projects shall be allocated to a specific category of research and development and shall be the following: (a) personnel costs: researchers, technicians and other supporting staff to the extent employed on the project. (b) costs of instruments and equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles, are considered as eligible. (c) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project. (d) additional general costs and other operating expenses, including costs of materials, supplies, travel expenses, organization of meetings, dissemination/publicity costs, audit costs, incurred directly as a result of the project implementation. (e) indirect costs = flat rate of 25% of direct costs (except subcontracting costs). Indirect costs are eligible for all legal entities and include costs that do not incur directly as a result of the project implementation (e.g. administrative and management costs, utility costs)

Additional eligibility criteria	A. GSRI potentially supports the following types of RTD, namely: industrial research, experimental development, according to the provisions of Art. 25 of Commission Regulation (EU) 651/2014, as amended by Regulation (EU) 2021/1237 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty). B. Aid intensity Public research Institutes and Universities: the aid intensity can reach 100% for performing non-economic activities in accordance with point 19, article 2.1.1 of the «Framework for State aid for research and development and innovation» (2014/C 198/01). Maximum aid intensity for undertakings is calculated according to paragraphs 5,6,7 of article 25 of Reg. (EU) 651/2014, as amended by Reg.(EU) 2021/1237 & Reg.(EU) 2023/1315 (table 1) : (a) 50% of the eligi-ble costs for industrial research; (b) 25% of the eligible costs for experimental development. The aid in-tensities for industrial research and experimental development may be increased up to a maximum aid intensity of 70% of the eligible costs as follows: (a) by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises; (b) by 15 percentage points if one of the following conditions is fulfilled: (i) the project involves effective collaboration: — between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70 % of the eligible costs, or — between an undertaking and one or more research and knowledge-dissemination organisations, where the latter bear at least 10 % of the eligible costs and have the right to publish their own research results; (ii) the results of the project are widely disseminated through conferences, publication, open access repositories, or free or open source software.

Table 1: Funding rates-maximum funding percentages

		Industrial/ Applied Research	Experimental development/ innovation
Large Enterprises		50-65%	25-40%
Medium Enterprises		60-70%	35-50%
Small Enterprises		70%	45-60%
Universities, public research organisations		100%	100%
Public authorities with R&D activities		100%	100%
Associations without economic activities, NGOs	**Large**	50-65%	25-40%
	Medium	60-70%	35-50%
	Small	70%	45-60%

A. With regard to clinical organizations in particular, in order to be eligible, they have to carry out research as one of their main objectives, according to the law or their statutes.
B. Upper limit of the total public funding will be 200.000 € per project (including indirect costs). This amount can be increased to 250.000 € per project if the Greek partner assumes the European project coordination. The maximum state aid intensity will be calculated according to the provisions of the European state aid rules and regulations in force (type of research activity, size of the participating enterprise, collaborative research etc).

	C. With regard to the evaluation of the projects, at national level, only eligibility check is conducted and not a full peer review at pre-proposal and full proposal stages. We rely on the evaluation made by the independent reviewers and the Peer Review Panel (PRP). A national procedure will follow for the approved for funding at the transnational level proposals only. For more information please contact the NCP. Duration of the projects: The duration of a funded project is 24- 36 months. A possible extension of the duration under conditions can be accepted maximum up to the1/3 of the initial duration taking into account the starting date without modifying the scientific or increasing the financial part of the project and the prerequisites of the current Programme (e.g. 31/12/2029, closing date for financing the projects in national level).
Relevant documents	
Additional Information	At national level, only eligibility check is conducted and not a full peer review at pre-proposal and full proposal stages. We rely on the evaluation made by the Call Evaluation Committee and external reviewers.

</table>

Eligible Costs	***Personnel costs (permanent/temporary)*** • Eligible staff costs include gross salary and employer's PRSI (pay-related social insurance) and employer's pension costs (max 20% of gross salary). Temporary or contract research staff are eligible for Higher Education Institutions and Other Public RPOs, but staff costs for permanent staff are not. • Both temporary and permanent staff costs are eligible for Industry/Private RPO partners. • Master's and PhD student costs (current rates – student stipend €25,000 per annum and college fees €6,000 per annum). • Master's and PhD must be registered, on a full-time basis, for a higher degree at an eligible Higher Education Institution. ***Research costs (travel, consumables, etc.)*** • Project-related travel and consumables are allowable costs e.g. travel and subsistence for project fieldwork and meetings, workshops, conferences, laboratory supplies, computer supplies, software, etc. ***Equipment*** • The purchase and installation of small-scale scientific equipment and instruments for the project is allowable. Depreciated cost reimbursed with be either 36 or 60 months. • The purchase of a personal computer/laptop is eligible at a maximum cost of €2,000 per researcher and must be used solely for carrying out the project work. ***Overheads*** • Maximum overheads allowed are 30% of all costs excluding Equipment and Subcontracting. ***Subcontracting*** • Subcontracting to a third party for specialist resources/skills is allowable, subject to normal procurement guidelines. Subcontracting costs are limited to 20% maximum (e.g. €60,000 if requesting total grant-aid funding of €300,000). The maximum Grant-Aid reimbursement for Industry is 50% for Large Scale Enterprises and 75% for Small-Medium Sized Enterprises of eligible costs. Grant-Aid reimbursement for Higher Education Institutions and Other Public RPOs is up to 100% of eligible costs.
Additional eligibility criteria	Projects with Irish partners should address requirements under national strategies and policies (see below).

	Irish project partners will be required to sign a **Grant Agreement** with the Marine Institute, if their proposal is successful under this call. This is in addition to the Consortium Agreement. Projects that receive funding from the Marine Institute are required to submit progress and final reports pursuant to their Grant Agreement with the Marine Institute. Projects that receive funding from the Marine Institute are required to follow Open Access/Research guidelines. Marine Institute researchers may participate as partners in proposals, but not as co-ordinators.
Relevant documents	The Marine Institute manages the *National Marine Research Programme,* which provides funding to the Irish marine sector through competitive calls. Funding is provided for marine research that addresses national strategic priorities as stated Ocean Knowledge 2030, *Climate Action Plan for Ireland*, *Food Vision 2030* and *Impact 2030*.
Additional Information	Applicants must contact their National Contact Point (details above) prior to submission of any application under this call.
Useful Links	Further details published on the Marine Institute website at: https://www.marine.ie/site-area/research-funding/research-funding/current-funding-opportunities Email queries can also be sent to: funding@marine.ie

1.16 IRELAND – Research Ireland

National/Regional regulations & regional contact points

	**Funding organisation:** **Research Ireland** **www.researchireland.ie**	Taighde Éireann Research Ireland	
National Contact Point (NCP)	**Name:**	**Email and Phone:**	
	Emma McGrath **Maria Nash**	**Emma.mcgrath@researchireland.ie** **Maria.nash@researchireland.ie**	
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**	
	600,000 €	Partner: €330,00 direct costs Coordinator: €405,000 direct costs	
Funded priority area (s)		**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	
Eligible Institutions	Only an academic partner/coordinator based in an eligible Irish Host Research body may apply for Research Ireland funding. Please refer to Research Ireland's Policies and Guidance for the list of eligible Research Performing Organisations: Eligible Research Bodies		

Eligible Applicants	**The Irish-based applicant must:** hold a PhD or equivalent qualification for at least 3 years by the pre-proposal deadline. The official date is defined as the day, month and year that the degree was conferred i.e., the month and year printed on the official PhD certificate. **AND** be a member of the academic staff of an eligible Research Body (permanent or with an active contract that covers the period of the grant) **OR** be a contract researcher with a contract that covers the period of the grant, who is recognised by the eligible Research Body as an independent investigator and will have an independent office and research space for which he/she will be fully responsible for at least the duration of the Research Ireland grant **OR** be an individual who will be recognised by the eligible Research Body upon receipt of the grant as an academic staff or as a contract researcher as defined above. The applicant does not necessarily need to be employed by the Research Body at the time of the application submission. **AND** be an author on at least three international peer-reviewed articles. Only original research publications, and not review articles or other secondary research literature, are acceptable. Please refer to the Research Ireland call webpage for more information on eligibility criteria. Please note that Research Ireland may contact applicants directly to confirm eligibility post submission.
Eligible Costs	Funding is provided for up to 100% of eligible costs: 1. **Salary-related costs** for research personnel. Please use current Research Ireland Team Member Salary Scales. The applicant cannot request their own salary. **2. Small equipment costs** 3. **Travel costs** with consideration for Research Ireland's Guidance for Sustainable Travel Policy 4. **Direct running costs** (materials and consumables) **5. Dissemination and knowledge exchange costs**

	6. **Subcontracting costs** are considered an eligible budget category however strong justification for subcontracting must be provided and pre-approved directly with Research Ireland in advance of proposal submission. A maximum of €330,000 direct costs can be requested for a project partner, and €405,000 direct costs for a project coordinator. 7. **Overheads** should be calculated as 30% of the direct costs, but excluding therefrom the cost of all equipment identified in the proposal. The maximum total award, including overhead contribution, will be €430,000, for a partner and €530,000 for applicants who take on the role of coordinator. Unless otherwise stated, all rules regarding eligible costs listed above and ineligible costs apply as defined within Research Ireland's grant budget policy
Additional eligibility criteria	Only one partner within the proposal may request funding from Research Ireland. An individual applicant may only submit one project proposal to Research Ireland. Applicants must notify Research Ireland of their intention to submit a proposal via the national contact points listed above in advance of the submission deadline.
Relevant documents	Please review Research Ireland's grant policies and guidance for further information
Additional Information	**State Aid:** Applicants are advised that funding awarded by Research Ireland under the Sustainable Blue Economy Partnership Programme will be subject to, and must comply with, State aid rules and the conditions of the EU Commission General Block Exemption Regulation (GBER). Funding will be awarded to successful applicants under Article 25, in respect of aid for research and development projects. For further details please consult: Taighde Éireann Research Ireland Research and Innovation Scheme 2021-2026
Useful Links	Following call launch, please visit Research Ireland's dedicated call webpage at Funding - Research Ireland

1.17 ITALY-MUR

National/Regional regulations & regional contact points

	**Funding Organisation:** ***www.ricercainternazionale.mur.gov.it***		
National Contact Point (NCP)	**Name:**		**Email and Phone:**
	Mrs Yasmine Iollo Mrs Sonia Angiolin		yasmine.iollo@est.mur.gov.it sonia.angiolin@est.mur.gov.it
Funding Commitment	**Funding contribution to the Call (in €)**		**Minimum/maximum funding per awarded Project and Partner**
	3 000 000 €		Maximum funding per project: International projects coordinated by an Italian entity: 500.000 euro; Projects not coordinated by an Italian entity: 350.000 euro
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	

Eligible Institutions	**The following entities are eligible, providing that they have stable organization in Italy:** - **enterprises, including foundations and non-economic entities (included registered NGOs),** - **universities,** - **research institutions and research organizations in accordance with EU Reg. n. 651/2014 of the European Commission - June 17, 2014.** - **Public administrations** **Any participant, in order to be eligible, must comply with the eligibility criteria listed in the "Avviso integrativo nazionale".**
Eligible Applicants	-
Eligible Costs	All activities classifiable as Basic Research, Industrial research and Experimental development are eligible for funding. Furthermore, Basic and Industrial research activities altogether must be predominant with respect to Experimental development activities (i.e. altogether, the cost of Basic and Industrial research activities must be greater than the cost of the Experimental development activities). All costs incurred during the lifetime of the project under the following categories are eligible: A) Personnel, B) Consulting and equivalent services (subcontracting) C.1) Travel and subsistence C.2) Equipment C.3) Other goods and Services E) Indirect Costs/Overheads ("Spese generali") calculated at 15% flat rate of all direct costs excluding cost category B) Consulting and equivalent services [E) = 15% of A) + C.1) + C.2) + C.3]. Value added tax (VAT) actually and definitively incurred by the beneficiaries is an eligible expense only if it is not recoverable. Funding rates

	The amount of funding which can be granted to each beneficiary is calculated multiplying the eligible costs for the funding rate listed hereafter: - Basic research: 70% - Industrial Research: 70% Experimental Development: 25%
Additional eligibility criteria	**Legal/administrative/financial conditions** Applicants shall: • not be defaulting with regard to other funding received by the Ministry of University and Research; • not have requested/got any other funding for the same project; • be compliant to the Italian law "D.Lgs. n 159 del 6/09/2011 e successive modificazioni ed integrazioni"; • not be subject to bankruptcy proceedings as of art. 5, comma 4, letter b) of DM 1314/2021 or must not be a company in difficulty according to the definition under number 18) of article 2 "Definitions" of Regulation (EU) no. 651/2014; • be in compliance with the obligations laid down in the contributory and social security regulations (DURC); Applicants shall demonstrate their viability and financial soundness regarding their own contribution to the project. For **any private entity, if the following financial criteria**, calculated using the data reported in the last approved balance sheet, **are not fulfilled, the applicant can be funded only if a bank guarantee is provided:** **a) CN > (CP – I)/2** Where: • CN = net assets (Capitale netto) • CP = sum of the costs of all the projects for which public funding has been requested by the participant during the year • I = sum of the contributions received, approved or requested for the same projects **b) OF/F < 8%** Where:

	• OF = financial charges (Oneri finanziari) • F = turnover (Fatturato)
Relevant documents	The admission for funding is subject to the adoption of the necessary accounting and administrative measures for the allocation of the resources. Funded participants will be requested to submit financial and scientific reports to MIUR. The criteria and provisions provided herewith are intended only for informative purposes. The complete list of criteria and provisions legally valid, which must be respected by all the Italian participants, is included in the "**Avviso integrativo nazionale",** to be published on the dedicated web page on MUR website: http://www.ricercainternazionale.miur.it/era/european-partnership-2021-27/sbep.aspx Applicable laws and rules: (http://www.ricercainternazionale.miur.it/evidenza/normativa-prog-internazionali.aspx): - DL n. 83/2012 Misure urgenti per la crescita del Paese; - DM n. 1573 del 09/09/2024 - Nuovo sistema di concessione delle agevolazioni del MUR alle attività di ricerca - Avviso Integrativo nazionale Information available at: http://www.ricercainternazionale.miur.it/era/european-partnership-2021-27/sbep.aspx
Additional Information	**In addition to the project proposal, which shall be submitted at European level, the Italian participants are requested to submit to MUR, for the pre-proposal phase, a national integrative application signed by the legal representative person or a person delegated for this task, through the national web platform, available at the following link:** https://banditransnazionali.mur.gov.it **This national integrative application must be submitted by the same deadline established for the pre-proposal phase submission as defined in the international call. Any participant who does not submit its national integrative application by the deadline of the pre-proposal phase will be considered not eligible for funding.**

1.18 LATVIA – LZP

	Funding Organisation: ***https://www.lzp.gov.lv/lv***	**Name of the funding organisation** Latvijas Zinātnes padome
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Aiga Salmiņa	**aiga.salmina@lzp.gov.lv**
	Lāsma Brenča	**lasma.brenca@lzp.gov.lv**
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	600,000€	**Max 300 000 per partner not exceeding Max 100.00 per year**
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**

	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Eligible Institutions	1) Research institutions registered in the Latvian Registry of Scientific Institutions, e.g. - Research Institutes - Universities and must have the status of Research and knowledge dissemination organization (Regulation EC 651/2014) 2) Business enterprises entered into the Latvian Commercial registry as companies, assumed they are eligible to do the specific research and have specific capacity and resources to do the research in Latvia and have their main activity in Latvia. Limitations of EU legislation apply (R651/2014) together with financial reporting requirements, in this case this is state aid. Two previous statements with sworn auditor's approval should be provided and they must reflect the correspondence to the regulation as well as evidence of previous scientific activity and presence of capacity. Any other type of participant is not covered by LZP funding mandate	
Eligible Applicants	Latvian beneficiaries are institutions as defined in previous point. The research group is represented by a leading researcher (PI) from the respective research institution who is mandated to participate in the application.	
Eligible Costs	Personnel costs incl. taxes; Consumables; Subcontracts (up to 25% of direct costs), needs	

	detailed justification, includes all external services, project core activities cannot be subcontracted; Equipment (only depreciation costs during project directly attributable to project tasks); Travels (according to travel plan); Indirect costs (up to 25% of direct costs excluding subcontracting).
Additional eligibility criteria	TRL9 is not funded
Relevant documents	Support is provided according to Provisions Nr 259, 26.05.2015 of the Latvian Cabinet of Ministers **https://likumi.lv/ta/id/274671-atbalsta-pieskirsanas-** At the contract phase - https://www.lzp.gov.lv/lv/atbalsts-starptautiskas-programmas-projektiem To receive funding by LZP, Consortium agreement duly signed should be presented. Annual financial and scientific reporting is mandatory. Enterprises shall provide audited statements of 2 previous closed financial periods on request. Final audit according to the LZP regulations
Additional Information	Support is provided according to Provisions Nr 259, 26.05.2015 of the Latvian Cabinet of Ministers **https://likumi.lv/ta/id/274671-atbalsta-pieskirsanas-kartiba-dalibai-starptautiskas-sadarbibas-programmas-petniecibas-un-tehnologiju-joma** These provisions should be respected without exceptions. The maximum rates should respect the Provisions. The requirements in the provisions to specific applicant groups must be respected. LZP cannot fund implementation support, nor training activities. LZP is funding only research

	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Eligible Institutions	Applicants for project funding must be affiliated with an academic institution, company/industry, the public sector or an NGO. See definition and specification here: https://www.forskningsradet.no/en/apply-for-funding/who-can-apply-for-funding. Sole proprietorships cannot apply for funding from the RCN.	
Eligible Applicants	The Project Leader (PL) or the principal investigator (PI) must have completed a doctoral degree or have corresponding qualifications.	
Eligible Costs	The participation must follow RCN's General Terms and Conditions for Research projects or for R&D Projects. See: Budget (forskningsradet.no). The budget for the Norwegian partners shall follow the RCN cost model and the RCN regulations. **Exchange rate:** The budget applied for shall be stated in Euro. Conversion from Euro to Norwegian kroner is based on the official exchange rate per deadline for preproposals. The official exchange rate can be found here: InforEuro, the exchange rate of the Euro currency (europa.eu) **Private companies/undertakings: If you are a private company/undertaking applying or a private company/ undertaking will be part of your project, please read this section:** Applicants that are private companies, is an actor that carries out an economic activity consisting of offering products or services on a given market, must be aware that their funding will be given within the limits set by the State Aid Rules; State aid (forskningsradet.no). State aid awarded by the RCN is granted under the **General Block Exemption Regulation for state aid**, **Article 25: Aid for research and development projects**. To ensure that support is awarded in compliance with the state aid rules, the RCN may ask applicants to provide supplementary information. The Project Owner must be able to document that its own institution and all its partners (all recipients of state aid) are eligible to receive state aid. Support from the RCN constitutes state aid when it is awarded to an "undertaking", i.e., an actor that carries out an economic activity consisting of offering products or services on a given market. Support from the Research Council of Norway awarded to research	

	institutions is normally awarded for non-economic activity. When an entity also pursues economic activities ("undertaking"), the financing, the costs and the revenues of those economic activities will be granted under the state aid guidelines and must be entered in separate accounts. The level of state-aid an undertaking can receive is generally based on the size of the undertaking, types of activities they will execute in the research project and types of collaboration within the project. Please see important definitions on actual collaboration, types of activities and undertakings in difficulty under article 25: Articles for state aid from the Research Council of Norway **Maximum state aid:** • **Small companies:** maximum 80% (based on the definition of R&I activities and actual collaboration) • **Medium-sized companies:** maximum 75% (based on the definition of R&I activities and actual collaboration) • **Large companies**: maximum 65% (based on the definition of R&I activities and actual collaboration) Please note that the state aid applied for by an undertaking can be reduced in dialogue with the RCN based on assessments during eligibility check or revision.
Additional eligibility criteria	**Funding from the Research Council of Norway is limited to research and innovation activities aligned with sustainable blue bioeconomy, biotechnology and environmental sustainability, including enabling technologies with a clear and direct application in these areas.** **For the Research Council of Norway projects that target the seafood industry (fisheries and aquaculture – all species incl. low trophic species), and related infrastructures and value chains are eligible for funding. Projects targeting use of biotechnology relevant for these industries as well as research targeting marine environment and climate are also eligible.**

	The following topics are not eligible for funding by the Research Council of Norway under this call: • **Energy production, energy systems, and marine energy infrastructure (including offshore renewable energy and energy security)** • **Exploration, extraction or utilisation of mineral resources from the seabed (including deep sea mining)** • **Carbon capture and storage or carbon sequestration activities in the marine domain** • **Development of industrial offshore or marine infrastructure, unless clearly justified as supporting sustainable bioresources, environmental management or ecosystem-based approaches** **Proposals including such elements may still be considered eligible provided that these activities are not the primary focus of the project and represent a limited part of the overall project, and if the project primarily addresses sustainable blue bioresources, environmental impacts, biotechnology or enabling technologies supporting these domains.**
Relevant documents	For more general information about Norwegian conditions for funding, please read: https://www.forskningsradet.no/en/apply-for-funding/funding-from-the-research-council/
Additional Information	Norwegian applicants shall not submit any proposal at the national level before a funding decision is made, and their project is granted funding. Project partners of projects granted funding will have to submit national application forms to The Research Council of Norway after notification. Norwegian project partners will sign a separate contract with the RCN. Norwegian partners that are coordinators of the projects will be asked to also coordinate the Norwegian partners of the projects in dialogue with the RCN (reporting etc.). If there are more than one Norwegian partner but no

	Norwegian coordinator the RCN will ask one of the Norwegian partners to function as a contact point for the Norwegian partners. The participation for Norwegian partners must follow RCNs General Terms and Conditions for R&D Projects. Depending on the volume of submitted and eligible projects, up to 25 % additional funding may be allocated to the call to fund additional projects on the ranking list **Open access / Open science** The Research Council seeks to lead the way in making research as open as possible and as closed as necessary. The Research Council of Norway has stipulated requirements relating to self-archiving and open access to publications and research data produced in connection with R&D projects funded by the Research Council. Read more about The Research Council's Principles for Open Science: https://www.forskningsradet.no/en/Adviser-research-policy/open-science/

1.23 POLAND – NCBR

National/Regional regulations & regional contact points

	**Funding Organisation:** **The National Centre for Research and Development (NCBR)** ***https://www.gov.pl/web/ncbr***	NCBR National Centre for Research and Development
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Monika Włoszek	**monika.wloszek@ncbr.gov.pl** **+48 22 39 07 180**
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	1,000,000 €	**Maximum funding for a project partner/s – up to 300,000 € per project.**
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**
		Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Eligible Institutions	N/A	

Eligible Applicants	1. Enterprises[1] - SME and Large, 2. Research organisations (research and knowledge-dissemination organisations)[2], 3. Groups of entities composed of at least two enterprises, 4. Groups of entities composed of at least one research organisation and at least one enterprise, Group of entities composed of at least two research organisations.
Eligible Costs	**1. personnel costs** (researchers, technicians and other supporting staff to the extent employed on the research project); **2. costs of subcontracting, costs of consultancy and equivalent services** used exclusively for the research activity; this cost type cannot account for more than 70% of all eligible costs of a project; the subcontracting can be obtained from consortium partner only in justified case, this need will be verified by a national experts panel; **3. operating costs including** (depending on the type of eligible institution): **Research Organizations:** • costs of instruments and equipment, technical knowledge and patents to the extent and for the period used for the research project; if such instruments and equipment are not used for their full life for the research project, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice, shall be considered eligible; • costs for buildings and land, to the extent and for the duration used for the research project; with regard to buildings, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice shall be considered eligible; for land, costs of commercial transfer or actually incurred capital costs shall be eligible;

[1] defined in Annex I to Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (hereinafter referred to as "Commission Regulation (EU) No 651/2014");

[2] Defined in Commission Regulation (EU) No 651/2014;

	• other operating costs including: costs of materials, supplies and similar products incurred directly as a result of the research activity; training costs; travels costs including conference fees; costs of project promotion (e.g. articles, project webpage); **Enterprises:** • costs of instruments and equipment, technical knowledge and patents to the extent and for the period used for the research project; if such instruments and equipment are not used for their full life for the research project, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice, shall be considered eligible; • costs for buildings and land, to the extent and for the duration used for the research project; with regard to buildings, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice shall be considered eligible; for land, costs of commercial transfer or actually incurred capital costs shall be eligible. **4. additional overheads** incurred indirectly as a result of the research project (depending on the type of eligible institution); **Research Organizations:** additional overheads for research organizations should account 25% of all eligible direct costs; That costs (4) are counted as a multiplication by percentage given above (called x%) and the rest of direct costs for research organizations, excluding subcontracting (2); It means 4=(1+3)*25%. **Enterprises:** additional overheads for enterprises include also other operating costs, eg. costs of materials, supplies and similar products incurred directly as a result of the research activity, training costs; travels costs including conference fees; costs of project promotion (e.g. articles, project webpage). That costs should account 20% of all eligible direct project costs; Additional overheads (4) are counted as a multiplication

<table>
<tr><td></td><td>by percentage given above (called x%) and the rest of direct costs for enterprises; It means 4=(1+2+3)*20%.

Projects requesting more than PLN 3 million funding are entitled to claim the cost of the audit. For more details on eligible costs, please check the guidelines in the call announcement on NCBR webpage.</td></tr>
<tr><td>Additional eligibility criteria</td><td>Research organisations: all types of research may be funded. Basic research must not exceed 10% of value of national requested budget. Other types of activities (e.g. coordination, dissemination, management) are not eligible for funding as separate WP/Task.

Enterprises: Only Industrial/Applied Research and Experimental Development will be funded. Other types of activities (e.g. coordination, dissemination, management) are not eligible for funding as separate WP)/Task.
For entrepreneurs independently undertaking projects at the national level (meaning there is no Polish group of entities or Polish group of enterprises), there is no possibility of increasing the intensity of state aid for industrial research and experimental development based on the condition of effective cooperation between entrepreneurs or between entrepreneurs and research organisations.

National funding rates:
Funding quota of Polish participants can be up to 100% for research organisations. In the case of enterprises, funding quota will be decided on a case-by-case basis depending on the size of the company, type of research/development, risk associated with the research activities and commercial perspective of exploitation.
The following maximum funding quotas apply:

<table>
<tr><th>Type of Organization

Type of Activity</th><th>Micro/Small Enterprises</th><th>Medium Enterprises</th><th>Large Enterprises</th><th>Research Organizations</th></tr>
<tr><td>Fundamental/ Basic Research</td><td>n/a</td><td>n/a</td><td>n/a</td><td>Up to

100%</td></tr>
</table>
</td></tr>
</table>

<table>

100 %</td></tr>
</table>
</td></tr>
<tr><td>Relevant documents</td><td>All proposals must be aligned with national regulations, inter alia:
• The Act of 20 July 2018 - Law on Higher Education and Science;
• The Act of 30 April 2010 on the National Centre for Research and Development;
• The Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, which is in line with the Commission Regulation (EU) No 651/2014;
• The Regulation of the Minister of Science and Higher Education of 17 September 2010 on the detailed mode of performance of tasks of the National Centre for Research and Development.</td></tr>
<tr><td>Additional Information</td><td>• Polish applicants shall declare the TRL of their research in the pre -proposals and full proposals.
• Applicant must be established as a legal person[3] and must conduct its business, R&D or any other activity on the territory of the Republic of Poland, confirmed by an entry into the relevant register[4]
• For enterprises it is strongly advised to state in the Pre-proposal application form the KRS number of the enterprise and the size of the enterprise (micro/small, medium, large).</td></tr>
</table>

[3] Legal person (juridical person) - an entity that is capable of having and amending legal rights and obligations within a certain legal system, such as to enter into contracts, sue, and be sued, excluding natural persons.

[4] if applicable.

	• A condition for the participation of a group of entities as the Applicant in the call is its formal existence on the date of submission of the pre-proposal, confirmed by its members concluding, at least conditionally, agreement on the creation of a group of entities. • If more than one Polish entity participates in the project, the national application is submitted by a consortium (group of entities) of all Polish entities. • After international evaluation of full proposals and the selection of projects to be funded, Polish participants will be invited to submit a National Application Form (NAF) with required attachments. The NAFs will be examined for the appropriateness of funding requested. The Polish participants are obliged to use the rate of exchange of the European Central Bank dated on the day of opening of the call.
Useful Links	Detailed information about scope, financial rules, national procedure and national regulations is available on the NCBR’s homepage: https://www.gov.pl/web/ncbr/platforma-konkursowa https://www.gov.pl/web/ncbr/wniosek-krajowy

1.24 PORTUGAL – FCT

National/Regional regulations & regional contact points

	**Funding Organisation:** Fundação para a Ciência e a Tecnologia **www.fct.pt**	fct Fundação para a Ciência e a Tecnologia
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Marta Norton	marta.norton@fct.pt + 351 21 3911565
Funding Commitment	**Funding contribution to the Call (€)**	**Minimum/maximum funding per awarded Project and Partner**
	500,000 €	The maximum amount of funding to be requested from FCT by a consortium with a **Portuguese Main Applicant** is **250 000,00 €**. --- The maximum amount of funding to be requested from FCT by a consortium with **Portuguese Project Applicant** is **150 000,00 €** **Notes** • If more than one Portuguese applicant participating in the **same international consortium** applies for funding by FCT, the

			combined funding demanded by all the Portuguese applicants **may not exceed the maximum financial threshold for proposals with a Portuguese Main Applicant** (250 000 EUR) or **with a Portuguese Project Applicant** (150 000 EUR). Portuguese Main Applicants and/or Project Applicants in the same international consortium will therefore have to share the funding that will be granted by FCT • For information on funding rates, see no. 2, Article 7 of FCT regulation
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
		Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches	
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	
Eligible Institutions	Applications requesting funding from FCT under this call will be subject to FCT Regulation on projects funded solely by national funds**,** as amended by the Regulation no. 5/2024, of 3 January, hereinafter referred to as FCT Regulation, which amends and republishes Regulation no. 999/2016, of 31 October, and to other applicable national and EU legislation**.**		
Eligible Applicants	For eligible institutions, please consult **Article 3** of FCT Regulation		
Eligible Costs	All applicants applying on behalf of the eligible institutions listed above		
Additional eligibility criteria	To define the budget, the terms defined in Article 8 of FCT Regulation apply to **eligible expenses,** and in Article 9 to **non-eligible expenses**.		

	Excluded from the range of eligible expenses are the **salaries and other remuneration supplements** of teachers, researchers, and other staff with a previously established indefinite contract with the Public Administration. Expenditure on **adapting buildings and facilities** is limited to a maximum of 10% of the project's total eligible expenses. The **project's indirect costs** are based on the application of a flat rate of 25% of the direct eligible costs
Relevant documents	For additional eligibility criteria of beneficiaries and projects please consult Articles 5 and 6 of FCT Regulation
Additional Information	• Applications requesting funding from FCT under this call will be subject to FCT Regulation **on projects funded solely by national funds**, as amended by Regulation no. 5/2024, of 3 January, which amends and republishes Regulation no. 999/2016, of 31 October Financial Execution Rules
Useful Links	• For additional information, please check FCT Regulation • The percentage of time dedicated to transnational projects will not be added to the percentage of time dedicated to existing national projects. • FCT and CCDR as Portuguese funding agencies in this call, reserve the right to evaluate the possibility of transferring application(s) to the other Portuguese funding agency if an application is considered non-eligible by the funding agency selected by the candidate institution, but is eligible by the other Portuguese funding agency, which will from then on be responsible for managing the application(s). The transfer of applications will be carried out following the terms set out in the MoU signed between the parties. • If FCT or CCDTC reach the limit of the budget that each of the agencies has set for funding projects under this call before the number of applications recommended for funding by each of these agencies has run out, the applications recommended for funding that lack funding may be transferred to the agency that still has the budget to fund applications. The transfer of

	applications recommended for funding will be carried out in accordance with the terms set out in the MoU signed between the parties. **Statement of Commitment** • Within 10 working days after the deadline for submitting the pre-proposal, a Statement of Commitment duly signed by the Researcher in Charge (partner and/or coordinators) and by the legal representative of the Portuguese Proposing Institution must be sent to marta.norton@fct.pt • The stamp or white seal of the Portuguese Proposing Institution will not be required on a digitally signed Statement of Commitment, as long as it is signed, in the Authenticação.gov application, with professional attributes that identify the functions performed by the signatory. Portuguese applicants of transnational consortia that do not apply for funding from FCT do not need to submit the Statement of Commitment to FCT.

<tr><td>✓</td><td colspan="2">Priority area 4: Building resilience in coastal communities with infrastructure and businesses</td></tr>
<tr><td>Eligible Institutions</td><td colspan="3">The categories of institutions and units that can benefit from public funding for Horizon Europe projects are those established as components of the national research-development system, in accordance with</td></tr>
</table>

	the provisions of OG 57/2002, approved by Law 324/2003 with subsequent amendments and additions: educational institutions accredited public and private institutions, national research and development institutes, other public or private research organizations, economic agents (SMEs and large enterprises), local or central public administration units, non-governmental organizations.
Eligible Applicants	The head of the research team from each participating institution has a PhD degree. This condition does not apply if the institution is an enterprise within the meaning of the State Aid legislation. A person in charge of the research team will participate in a single proposal from the trans-national call in this capacity.
Eligible Costs	**Staff costs;** **Logistics expenses - Capital expenditure ;** - Expenditure on stocks - supplies and inventory items; - Expenditure on services performed by third parties cannot exceed 25% of the funding from the public budget. The subcontracted parts should not be core/substantial parts of the project work; **Travel expenses;** **Overhead** (indirect costs) is calculated as a percentage of direct costs: staff costs, logistics costs (excluding capital costs and cost for subcontracting) and travel expenses. Indirect costs will not exceed 20% of direct costs. The current guidelines for grants on an expenditure-cost basis and for allocations for administrative agreements apply. ANC will avoid double funding (overlapping with other EU or National funding) and will not grant projects or parts of projects already funded. ANC will fund strategic (basic) research, applied/industrial research, experimental development implemented by research organisations and/or SMEs, according to the national rules and to the State Aid legislation.

Additional eligibility criteria	It is strongly advised to contact ANC before submission, in order to verify the eligibility of the researchers and avoid ineligible projects/research consortia.
Relevant documents	The framework for this funding action is the National Plan for Research, Development and Innovation 2022-2027, Programme 5.8 European and international cooperation, 5.8.1 Horizon Europe Program

	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Estimated number of research partners that can be co-funded	2 research projects with Slovenian applicants.	
Eligible Institutions	"Research organizations", as defined in the national Scientific Research and Innovation Activities Act (*ZZrID*) are eligible for co-funding. All participating organizations must be registered in the register of the Public Agency for Scientific Research and Innovations of the Republic of Slovenia (*Slovenian Current Research Information System, hereinafter: the SICRIS*).	
Eligible Applicants	The eligibility of the research leader and other members of the research team: The project activities of **each** Slovenian partner must be supervised by a research leader who fulfils the conditions for a project leader as defined in paragraph one of Article 63 of the ZzrID. Regarding the definition of internationally comparable research outputs, the criteria for determining the achievement of internationally comparable research results and the period covering internationally comparable research achievements for the management of a research project or programme of 22 May 2024 are available at https://www.arrs .si/sl/akti/kriteriji-vodja-maj24.asp All participating researchers must be registered in the SICRIS and have available research hours. **The total funding requested per project for all Slovenian partners within a consortium may not exceed 300,000 € for the entire duration of the project.**	
Co-funding rate	• 100% for research organisations (such as universities, public and private research institutes) whose funded activity is **non-commercial** in accordance with the provisions of	

<table>
<tr>
<td></td>
<td>
the Community Framework for State Aid for Research and Development and Innovation. Wide dissemination of all research results on a non-exclusive and non-discriminatory basis is required.
• For research organisations whose funded activity is commercial in accordance with the provisions of the Community Framework for State Aid for Research and Development and Innovation, the provisions of the Community Framework for State Aid for Research and Development and Innovation (OJ EU C 198, 27.6.2014) and the national scheme for State aid for research and development (the Programme of collaborative research and development and other projects subject to State aid from the Ministry of Education, Science and Sport 2022-2030, as amended, published at: https: //www.gov.si/podrocja/izobrazevanje-znanost-in-sport/znanost/), the maximum co-funding rates shall be as follows:
<table>
<tr><th>Type of research</th><th>Large enterprises</th><th>Medium-sized enterprises</th><th>Small enterprises</th></tr>
<tr><td>Basic research</td><td>100%</td><td>100%</td><td>100%</td></tr>
<tr><td>Industrial research</td><td>65%</td><td>75%</td><td>80%</td></tr>

</table>
</td>
</tr>
<tr>
<td>Eligible Costs</td>
<td>The ministry will finance all eligible costs of Slovenian applicants in selected transnational projects, in accordance with the Decree on scientific research public funding from the budget of the Republic of Slovenia. Eligible costs must be directly related to the research carried out and must include all the following categories of direct costs:</td>
</tr>
</table>

	• personnel (including social, health, pension, and other contributions in accordance with national legislation); • materials (travel and meeting expenses, consumables, dissemination and knowledge exchange costs and other costs); • depreciation costs. Indirect costs are eligible for up to 25% of direct costs. This call is suitable for implementing Article 64 of the Scientific Research and Innovation Activity Act (Official Gazette of the Republic of Slovenia [*Uradni list RS*], Nos 186/21, 40/23, 102/24 and 40/25 (ZZrID)). For more detailed explanations, please refer to the *Navodila za prijavitelje in upravičence* (Instructions for Applicants and Eligible Persons) (available at: https://www.gov.si/teme/javno-javna-partnerstva-na-podrocju-raziskav-in-inovacij/). In the event of the application of the Rules determining special projects of national importance and the regulatory framework for the determination of salaries for researchers, costs will be planned in accordance with the provisions of this Annex.
Additional eligibility criteria	**Eligible type of research and TRL:** basic/applied – for Slovenian partner TRL range: 2-6. The type of research conducted by Slovenian researchers must be defined and explained in the project proposal (e.g. in the Comments on budget section). **Public expenditure eligibility period:** from the financial year 2028, until the end of the financial year 2030.

	Project expenditure eligibility period: From the start date of the transnational project, as specified in the National Documentation for the duration of the project, with the prescribed additional 30-day deadline for the payment of invoices related to the project costs. The project expenditure eligibility period starts after the entry into force of the consortium agreement between the selected consortium partners from the date on which the national co-funding contract enters into force. The co-funding contract enters into force on the date of the fulfilment of the suspensive condition, i.e. on the date of the conclusion/signing of the consortium agreement. The consortium agreement shall be deemed to be signed when the last signatory party signs it. If the consortium agreement is not signed at the latest within one year from the date of the start of the project (as specified in the national documentation), the contract between the parties shall not enter into force and therefore no rights and obligations shall arise between them. In this case, the contracting party cannot demand performance from the counterparty as agreed in the above-mentioned contract. As from the date of the entry into force of the contract, the eligible person shall be entitled to the payment of eligible costs and expenses incurred by it as a result of the implementation of the project from the date of the start of the project.
Relevant documents	**Legal basis – National regulation:** - State Administration Act (Official Gazette of the Republic of Slovenia [*Uradni list RS*], Nos 113/05 – official consolidated version, 89/07 – Constitutional Court Decision, 126/07 – ZUP-E, 48/09, 8/10 – ZUP-G, 8/12 – ZVRS-F, 21/12, 47/13, 12/14, 90/14, 51/16, 36/21, 82/21, 189/21, 153/22,18/23, 83/25 – ZOUL and 979+/26; hereinafter: ZDU-1); - Public Finance Act (Official Gazette of the Republic of Slovenia *[Uradni list RS*], Nos 11/11 – official consolidated text, 14/13 – corr., 101/13, 55/15 – ZFisP, 96/15 – ZIPRS1617, 13/18, 195/20 – Constitutional Court Decision, 18/23 – ZDU-1O, 76/23, 24/25 – ZfisP-1, 39/25, 85/25 – ZPJS and 112/25, hereinafter: ZJF); - Scientific Research and Innovation Activity Act (Official Gazette of the Republic of Slovenia [*Uradni list RS*], Nos 186/21, 40/23 102/24 and and 40/25, hereinafter: ZZrID);

Additional Information	Applicants must submit the transnational application in accordance with the instructions and deadlines set out in the joint transnational call for tender. The submission of an application at the national level is not foreseen.

	All information necessary to establish the eligibility for the co-funding of Slovenian applicants must be evident from the duly submitted transnational project application. The national contracting procedure will start once the projects are proposed for co-funding at the level of the transnational call for tenders. The national documentation submitted, including evidence of the start date of the transnational project, will be a prerequisite for the signature of the contract at the national level (a draft contract is annexed to the *Navodila za prijavitelje in upravičence* (Instructions for Applicants and Eligible Persons), available at: https://www.gov.si/teme/javno-javna-partnerstva-na-podrocju-raziskav-in-inovacij/).
Useful Links	All Slovenian applicants are recommended to contact the Slovenian national contact person. All Slovenian applicants should refer to the information published on the call for tenders at the following website: https://www.gov.si/drzavni-organi/ministrstva/ministrstvo-za-izobrazevanje-znanost-in-mladino/javne-objave For more detailed explanations, please refer to the *Navodila za prijavitelje in upravičence* (Instructions for Applicants and Eligible Persons) (available at: https://www.gov.si/teme/javno-javna-partnerstva-na-podrocju-raziskav-in-inovacij/).

1.28 SPAIN – AEI

National/Regional regulations & regional contact points

	**Funding Organisation:** **Agencia Estatal de Investigación (AEI)**	AGENCIA ESTATAL DE INVESTIGACIÓN
National Contact Point (NCP)	**Name:**	**Email:**
	Esther Chacón Campollo **Nora Matanzas Valtuille**	**oceans@aei.gob.es**
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**
	1,300,000 €	The **following funding limits for direct costs** for a three-year project are considered eligibility criteria. Proposals not respecting these limits could be declared ineligible. • If the consortium is NOT COORDINATED by an AEI-applicant: max. € 140.000 • If the consortium IS COORDINATED by an AEI-applicant: max. € 220.000 • If the consortium IS COORDINATED by an AEI-applicant and there is another AEI-applicant in the

proposal, the amount for both Partners is: max. € 260.000

• Additional amount of € 30.000 maximum (direct costs) can be requested per proposal if the work plan includes substantial experimental tasks to be carried out by the AEI applicants and which must be clearly justified in the budget.

• On top of the abovementioned direct cost limits, indirect costs must be added in the application: 25% of direct costs (including the subcontracting costs).

Important:

• only ONE applicant applying for funding to AEI is allowed per proposal

• Two AEI-applicants are allowed in the same proposal only in cases when one of them is acting as Coordinator

• The direct costs (including subcontracting) in the application must be rounded to the thousands.

Example of maximum funding per proposal	CD (€)	CI (25%) (€)	TOTAL (€)
One AEI-applicant	140.000	35.000	175.000

<table>
<tr><td></td><td></td><td colspan="2">
<table>
<tr><td>One AEI-applicant - coordinator</td><td>220.000</td><td>55.000</td><td>275.000</td></tr>
<tr><td>Two AEI-applicants – one coordinator</td><td>260.000</td><td>65.000</td><td>325.000</td></tr>
</table>

Additional amount of € 30.000 maximum (direct costs) and the corresponding indirect costs can be requested per proposal if the work plan includes substantial experimental tasks carried out by the AEI applicants. Substantial experimental tasks are those required for the development of observational or experimental research projects. For instance, ecosystem sampling, design and execution of experiments, obtention of new data sets, use of analytical procedures for the quantification of physical, chemical, geological, or biological variables.

Tasks in which existing data are used or re-analysed exclusively will not be considered substantial experimental tasks. Those tasks will be considered desk and not experimental research projects.</td></tr>
<tr><td rowspan="4">Funded priority area (s)</td><td>✓</td><td colspan="2">Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy</td></tr>
<tr><td>✓</td><td colspan="2">Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches</td></tr>
<tr><td>✓</td><td colspan="2">Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting</td></tr>
<tr><td>✓</td><td colspan="2">Priority area 4: Building resilience in coastal communities with infrastructure and businesses</td></tr>
<tr><td>Eligible Institutions and Applicants</td><td colspan="3">Eligible entities for the AEI funding are:

Non-profit research organizations (such as universities, public research institutions, technological centres and other private non-profit institutions performing RDI activities in Spain), which must comply with the requirements established by this transnational call and with the rules on eligibility</td></tr>
</table>

	defined in the corresponding Spanish national funding instrument "Proyectos de Colaboración Internacional" (see last call text PCI2026_1) and the "PCI requirements" document. The entities must have been previous beneficiaries under any of the AEI competitive calls. Principal Investigators (PIs) requesting funding to the AEI must comply with the eligibility rules set out in the "General Conditions for Participation in Transnational Open Calls" document and the "PCI requirements" document. Complete information on the eligibility requirements is available on the AEI website.
Eligible Costs	Please refer to the last call text "Proyectos de Colaboración Internacional" published (PCI2026_1, Artículo 8) and the document "General Conditions for Participation in Transnational Open Calls" for the eligible costs.
Other Funding Criteria	The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of the industrial sector and the financial resources available.
Relevant documents	**Funding Programme:** The framework for this funding action is the Plan Estatal de Investigación Científica, Técnica e Innovación 2024-2027. On a national level, the Call will be managed by the Subdirección de Programas Horizontales e Internacionalización of the AEI. **Funding Instrument:** The instrument for funding the Spanish groups is "Proyectos de Colaboración Internacional" (PCI). **Reference documents for national eligibility**: • The last PCI call text published (PCI2026_1) • The "PCI requirements" document

	• Document "General Conditions for Participation in Transnational Open Calls" In addition, the applicants are strongly encouraged to check their eligibility with the national Contact Point prior to submission. **IMPORTANT:** Proposals of projects that foresee the need to request research ship time must consult availability of research vessels and calendar of cruises and meet the requirements published in the COCSABO website Projects including research activities within the zone of the Antarctic Treaty should consult the requirements of the Comité Polar Español. **Submission of proposals at the AEI.** Within one week after the pre-proposal submission, the Spanish Principal Investigator (PI) must submit a national application to the AEI through the following link https://aplicaciones.aei.gob.es/proyectostransnacionales/. A national application is not required at the full proposal stage (only projects selected for funding will be asked to complete the national application). Failure to comply with the submission through the AEI platform will be considered a breach of the eligibility conditions, and the proposal shall be deemed not submitted. The application should include (i) a copy of the international application (the administrative part including the consortium composition and budget), (ii) the international joint proposal (memoria técnico-científica), (iii) the CV of the principal investigator and (iv) and the "Declaración responsable del investigador principal" duly signed by the Spanish principal investigator (please refer to the Word document Convocatorias Internacionales | Agencia Estatal de Investigación SBEP **Data Protection:** By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights.

	Do No Significant Harm (DNSH) principle: The projects granted under this call must comply with the DNSH criteria.
Additional Information	**INCOMPATIBILITIES - Important for Principal Investigators (PIs).** Incompatibilities must be taken into account when participating in different partnerships or other international initiatives funded through the following AEI calls: PCI, INT (bilateral call) or PID modality I. Please read carefully the document “General Conditions for Participation in Transnational Open Calls”. **Acknowledgement:** Any publication or dissemination activity resulting from the granted projects must acknowledge the AEI funding: “Project (reference nº XX) funded by Agencia Estatal de Investigación (AEI) through the PCI (year) call”.
Useful Links	Convocatorias Internacionales | Agencia Estatal de Investigación https://aplicaciones.aei.gob.es/proyectostransnacionales/

1.29 SPAIN – CDTI

National/Regional regulations & regional contact points

	**Funding Organisation:** **CDTI, E.P.E.** https://www.cdti.es/		
National Contact Point (NCP)	**Name:**	**Email:**	
	Héctor González	partenariadoshe@cdti.es	
Funding Commitment	**Funding contribution to the Call (in €)**	**Minimum/maximum funding per awarded Project and Partner**	
	400,000 €	**A minimum financeable budget of 150.000 € is mandatory for each Spanish company. A fundable budget of around 200,000 euros is recommended.**	
Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**	
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**	
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**	
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**	

Eligible Institutions	For-profit enterprises (large or SMEs) established and carrying out RTDI activities in Spain. Other entities such as Universities, Public Research Institutions, Technological Centres, and other not-for-profit private institutions are not eligible.
Eligible Applicants	For-profit enterprises (large or SMEs) established and carrying out RTDI activities in Spain.
Eligible Costs	• Staff costs related to technical staff directly involved in the R&D project, including management costs associated with the project.. • Instrument and equipment costs. • Communication and dissemination expenses up to 15,000 euros. • Implementation costs e.g., technical knowledge, patents, or consultancy services, intended exclusively for the research project and procured from external sources at market price. • Other costs including goods and services to be used exclusively for the research project e.g.: (national) audit costs max 2.000€ per year/beneficiary, travel costs associated with the implementation of the project, (8.000€ max. for the duration of the project). Overheads (indirect costs as a percentage of personnel costs) are calculated authomatically by CDTI´s electronic submission system. CDTI will only fund technology-based activities within industrial research and/or experimental development projects (in accordance with the definitions of the General Block Exemption Regulation, EC Regulation nº651/2014) representing outstanding scientific-technical quality and high innovative potential.
Additional eligibility criteria	Please note that non-technological activities e.g. developing new business models, are excluded from CDTI funding. R&D activities to be financed must belong to TRL 4-7 range and be implemented in Spain.
Relevant documents	**Each Spanish company participating in a project and requesting funding from CDTI, must apply via CDTI´s electronic submission system (https://sede.cdti.gob.es).** CDTI´s application process consists of completing an online application form which is accompanied by a short technical report written in Spanish. The report must focus on the activities (and associated budget) that the company will assume in the project (please check *Type of research funded* and *Eligible costs* sections in this table).

	Deadline to complete CDTI´s application process: The same end date as the first phase international application. **Please note that failing to comply with the national application process by the deadline, will deem the company ineligible to participate in the call.**
Additional Information	**The CDTI will finance a maximum of 70% of the eligible budget through grants.**

<tr><td></td><td colspan="2">Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting</td></tr>
<tr><td>✓</td><td colspan="2">Priority area 4: Building resilience in coastal communities with infrastructure and businesses</td></tr>
</table>

Eligible Institutions	SNSA Grants for research projects can only be administered by a Swedish university or other research organizations that fulfil the grant administrating organization eligibility requirements of SNSA Other types of entities (SMEs, industries, authorities, public administrations, associations, civil society organisations) are not eligible for funding. However, they can participate as self-funded partners or can be sub-contracted by an eligible institution.
Eligible Applicants	Principal applicants and co-applicants must have completed their PhD degree and be affiliated with a Swedish higher education institution, research institute or government agency with a research assignment that meets the SNSA requirements for administrating organisations.
Eligible Costs	SNSA' standard eligibility criteria for research projects apply. VAT should not be included in the budget figures.
Additional eligibility criteria	Swedish applicants in a consortium must apply to SNSA under one single project application after they have been invited to step – 2 (full proposal). Project duration is 3 years.
Relevant documents	
Additional Information	Swedish applicants who have submitted a pre-proposal to the Sustainable Blue Economy Partnership (the international submission platform), will be contacted by SNSA for further information on how to register their full proposals with SNSA, only if they are invited to submit a full-proposal at the second stage. Reports are to be submitted according to the regulations of the Sustainable Blue Economy Partnership and SNSA. SNSA is funding only priority area (1) **Digital Twins of the Oceans (DTO) at regional sub-sea-basin scale**. Swedish applicants who are interested to submit a research proposal in the other priority areas should apply for funds to FORMAS.

1.31 THE NETHERLANDS – NWO, IenW, LVVN

National/Regional regulations & regional contact points

	**Funding Organisation:** **Dutch Research Council (NWO)** www.nwo.nl/sbep	Ministerie van Infrastructuur en Waterstaat Ministerie van Landbouw, Visserij, Voedselzekerheid en Natuur NWO
National Contact Point (NCP)	**Name:**	**Email and Phone:**
	Daan Blok **Peter Spierenburg**	**sbep@nwo.nl** **+31 (0)70 349 41 18** **+31 (0)30 600 12 91**
Funding Commitment	**Funding contribution to the Call (in €)**	**Maximum funding per awarded project**
	€ 1,400,000	• **€ 400,000 in case of one national main applicant;** • **€ 600,000 in case of a national main applicant and at least one national co-applicant, both applying for research personnel costs.**

Funded priority area (s)	✓	**Priority area 1: Transitioning the blue economy sectors for sustainability and strategic autonomy**
	✓	**Priority area 2: Managing sea-uses by advancing digital and ecosystem-based approaches**
	✓	**Priority area 3: Promoting sustainable blue bioresources through innovation in production and harvesting**
	✓	**Priority area 4: Building resilience in coastal communities with infrastructure and businesses**
Eligible Institutions	An application for funding from NWO may consider the following roles: - National main applicant (mandatory): the national applicant who leads the application to NWO and is the foreseen national project leader, in case a project is granted. - National co-applicant (optional): national applicants in addition to the national main applicant with an active role and responsibility in realising the project and requesting funding from NWO. A researcher may only request NWO funding for one project (part of a European consortium) in this Call for proposals, either as national main applicant or national co-applicant within an application for NWO funding. **National main applicant** To be eligible to submit a proposal, researchers must be employed for an indefinite period* (with the associated employment contract) or have a tenure track agreement at any of the following research organisations: Researchers may submit an application as a national main applicant if they have a tenured position (and therefore a paid position for an indefinite period) or a tenure track agreement at one of the following research organisations: - universities and universities of applied sciences (UAS) as referred to in Article 1.8 paragraph 1 of the Higher Education and Scientific Research Act and universities listed in the Policy Rules for Universities located in the Kingdom of the Netherlands; - university medical centres as described in Article 1.13 paragraph 1 of the Higher Education and Scientific Research Act;	

	- KNAW institutes and NWO institutes; - TO2 institutions; - Netherlands Cancer Institute; - Max Planck Institute for Psycholinguistics in Nijmegen; - Naturalis Biodiversity Center; - Advanced Research Centre for NanoLithography (ARCNL); - Princess Máxima Center. Researchers employed at a university of applied sciences and researchers employed at a TO2 institute may also submit as a national main applicant if they have at least a salaried position for a limited period of time Individuals with a zero-hour or fixed-term employment contract (other than a tenure track appointment) cannot submit a proposal. Applicants with a part-time appointment must ensure adequate supervision of the project and all project members for whom funding is requested. It may be that the national applicant's tenure track employment contract ends before the intended completion date of the project for which grant funding is being requested, or that the national applicant's tenure agreement ends before this date due to their reaching retirement age. In such cases, the (pre)proposal must include a statement from the employer. In this statement, the research organisation in question guarantees that the project and all project members for whom funding is being requested will receive adequate supervision for the full duration of the project. This applies to a national main applicant as well as national co-applicant (see below). **National co-applicant** National co-applicants must be affiliated with a research organisation either 1) eligible as a national main applicant (see above), or 2) with other research organisations as described in Article 1.1, paragraph 4 of the NWO Grant Rules 2024 that comply with the following cumulative conditions.

	The organisation must: - be established in the Netherlands; - be a foundation, organisation or legal entity established and governed by public law (in Dutch: publiekrechtelijke rechtspersoon) (all other legal forms, including private and public limited companies, are excluded); - have as its primary goal the independent conduct of its own fundamental research, industrial research or experimental development or with widely disseminating the results of those activities through teaching, publications or knowledge transfer; - be able to state that the organisation keeps separate accounts regarding economic/non-economic activities and that undertakings with decisive influence on the organisation do not enjoy preferential access to the organisation's results. Note: For organisations that are not eligible as main applicant (see above); prior to the submission of a (pre) proposal and, full proposal, NWO will assess whether the organisation complies with Article 1.1, paragraph 4 of the NWO Grant Rules 2024 and is thus eligible to participate as national co-applicant based on the above conditions. This assessment also helps to ensure NWO’s compliance with regulations prohibiting state aid. The organisation of the prospective national co-applicant must provide the following documents no less than 10 working days prior to the submission deadline for pre-proposals (meaning no later than 2 November 2026, 14:00:00 CET) by email to sbep@nwo.nl: - a recent extract from the Chamber of Commerce; - a deed of establishment and/or current articles of association; - the most recently available annual accounts, including an audit report[5]; - a completed Research Organisation Statement, which is available on the funding page of this Call for proposals.

[5] No audit report is necessary for organisations not legally required to have their annual accounts audited. However, such organisations must be able to provide proof of exemption from this legal requirement.

	Other relevant documents may also be included. NWO may also request additional information if the above documents do not allow for adequate determination of the organisation's eligibility to act as national co-applicant. If in a full proposal national co-applicants are added to the consortium who are not affiliated with any of the research organisations listed above, these new national co-applicants must be assessed based on the same conditions. Again, the intended national co-applicant's organisation must submit at least the above-mentioned documents by email no later than 10 working days before the submission deadline (i.e. by 31 May 2027, 14:00:00 CEST) If the intended national co-applicant's organisation has already been assessed and found to comply with these conditions as part of a different NWO programme, please contact NWO at the above email address well before the applicable deadline to determine whether further assessment is necessary. If the intended national co-applicant's organisation fails to submit the documents required for assessment on time, NWO will not accept the organisation as national co-applicant. If a research organisation was already assessed and approved as a national co-applicant before submitting the pre-proposal, there is no need to have it assessed again for the submission of the full proposal.
Eligible Applicants	Maximum of 36 months
Eligible Costs	The available budget modules are: ***1. Personnel***: Salary costs can be claimed for the following positions: *1.1 Postdoc*: at least 1 position, for at least 12 months, for at least 0.5 fte, according to UNL or UMCNL rates, a benchfee is available; *1.2 Non-scientific personnel (NWP)*: according to UNL or UMCNL rates; *1.3 Research leave*: max. 10% of the grant amount, according to UNL or UMCNL rates.

	1.4 Personnel at universities of applied sciences, TO2 institutes and other organisations: using the Government Tariff Manual (HOT), Table 2, under 2.2 'average total salary cost per salary scale', column 'Hourly rate productive hours, excluding VAT' ***2. Materials***: For project-specific material costs, up to 25% of the grant amount. Subsequently, up to 50% of the material budget can be used for work by third parties. Engagement of students may be included here according to the usual internship fee or HOT rates[6]. ***3. Knowledge utilisation***: For activities that promote the use of knowledge from the research, mandatory and at most 20% of the grant amount. ***4. Project management***: Up to 5% of the grant amount. It is recommended to use the NWO budget template in the pre-proposal stage to confirm eligibility of budget items and correct use of tariffs. For full proposals, it is mandatory to submit the NWO budget form for the funding requested at NWO at the time of the transnational deadline. A detailed "Explanation of budget modules and indexing" can be found on the NWO funding page of this Call for proposals. Do not hesitate to contact the national contact point in case of questions.
Additional eligibility criteria	Please note the following: - An application for NWO funding has one national main applicant, responsible for research and financial management. National co-applicants within an application for NWO funding are allowed. - Researchers employed at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 may not apply for a scientific or post-doc position for themselves. - PhD positions cannot be applied for in this call, due to the maximum project duration of 3 years.

[6] All activities included in this budget module must fit the European Commissionfinition of 'knowledge transfer activities' in the State aid framework for research and development and innovation (OJ 2022, C 414).

	Overhead costs are not eligible for NWO funding.
Relevant documents	Available on the NWO SBEP website: www.nwo.nl/sbep: - NWO budget form Explanation of NWO budget modules
Additional Information	The NWO Grant Rules 2024 and the Approval of Funding for Scientific Research are applicable to all applications for NWO funding. Any arrangements made regarding the grant from NWO, for instance in a Consortium Agreement, must comply with the NWO Grant Rules 2024 and the European legislation on state aid. Once proposals are recommended for funding on a transnational level, the consortia will be notified by the SBEP Call Secretariat and subsequently, the national granting process will be initiated by NWO. Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objection’s procedure can be found on the NWO website: https://www.nwo.nl/en/lodging-an-objection. NWO will, if necessary, apply a one-off indexation of personnel costs when awarding a grant. The current UNL/UMCNL/HOT rate on the national decision date applies. Please refer to the “Explanation of budget modules and indexing” on the NWO funding page, for more information on indexing. As stipulated in the NWO Grant Rules, Article 3.2, paragraph 2, the project cannot start until the conditions set out in the grant award decision regarding the start of the project are met. Please note, these conditions will include a signed Consortium agreement by all partners in the transnational project. Submission of financial and scientific reports at national level is required in accordance with the rules of NWO. Granted consortia will be informed.

Eligible Institutions	All Ukrainian research institutions and higher education institutions (HEIs), regardless of their subordination or form of ownership (state, municipal, or private), are eligible to participate as partners or subcontractors, provided their involvement is justified and aligned with the project objectives. Their participation may require prior approval by national authorities.
Eligible Applicants	MESU can fund all types of Ukrainian partners actively participating in the projects.
Eligible Costs	Salaries, equipment other project-related costs, external services and overhead (depending on partner e.g. enterprise or public organisation)
Additional eligibility criteria	After the central application deadline MESU will, via our national e-grant platform (URIS), invite the Ukrainian applicants to upload mandatory documentation to e-grant. All participation requirements, application conditions, and template forms will be made available on the official website of the Ministry of Education and Science of Ukraine and in the Ukrainian Research Information System (URIS).
Relevant documents	These are the reference documents https://nrfu.org.ua/contests/current-calls/
