Nombre: OLIVER , A. DANIEL
Referencia: RYC-2013-14241
Área Científica: Derecho
Correo Electrónico: adoliver@unizar.es

Título:

Argumentación legislativa

Resumen de la Memoria:

I graduated in Law and completed my PhD in Public Law at the University of Zaragoza (2007, PhD Special Prize), having benefited from a four-years FPI grant; I have done further study and research stays at the universities of Tübingen (EU Computers & Law Programme), Kiel (DAAD-grant), Alicante (Postgraduate in Legal Argumentation), Buenos Aires and Genua. Upon FECYT support I enjoyed a postdoc scholarship at the Center for Legislation, Regulation and Legisprudence of the University of Brussels (HUB), before being appointed deputy professor in jurisprudence at the University of La Rioja (2009/13).

My themes are legislative argumentation (analyzed in the light of the theories of rational lawmaking and legal argumentation) and data protection law (in sociological and regulative perspectives). Within the first area, my recent publications include «Normas y razones» (Grandez & Morales eds., La argumentación en el Estado Constitucional, 2013), «Rational Lawmaking and Legislative Reasoning» (Wintgens & Oliver-Lalana eds., The Rationality and Justification of Legislation, 2013), «Argumentos de eficacia en el discurso parlamentario» (DOXA 31, 2008) and the guest-edition of a special issue on legislation and argumentation for Legisprudence - International Journal for the Study of Legislation (2010). In connection with this line, I published a monograph on communication-based legitimacy (Legitimidad a través de la comunicación, 2011) and co-edited a volume on R. Alexy's discursive theory of law (Principios, derechos y argumentación, 2011). Since 2012 I co-edit the series "Legisprudence Library - Studies on the Theory and Practice of Legislation" at Springer-SBM.

My research contributions in the area of data protection include «Consent as a Threat. A Critical Approach to Privacy Negotiation» (Katsikas et al. Trust and Privacy in Digital Business, 2004), «Internet como fuente de información accesible al público» (Revista de Contratación Electrónica 2006) and a book addressing the sociological side of privacy and data protection law (Derecho y cultura de protección de datos, 2012, co-authored with J.F. Muñoz). In the last fifteen years I've also participated in many EU, national and regional research projects involving problems of data protection and regulation of IT, such as "Privacy and Identity Management for Europe" (PRIME), A Legal Framework for the Information Society (LEFIS), "Digital Business Ecosystems" (DBE) or "Legal Technical Framework for Privacy Preserving Data Management" (ENDORSE). Since 2006 I am a member of the University of Zaragoza's Legal-Business Advanced Lab at WALQA Tech-Park.
